TOOLS REQUIRED
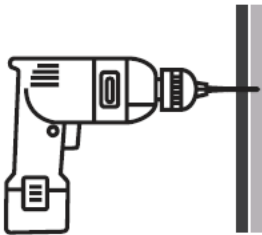

BRASQ®

INSTALLATION STEPS

1.
Please mark the position where you want to install the box on the wall according to the distance between the four mounting holes.

2.
Drill four holes according to the position of the holes on the back of the box.

3.
Insert Expansion Bolts and Turn the Expansion screws into the bolts.

4.
Install the Mailbox at the Right Place with screws and gaskets.

ATTENTION !

1. The fitting contains four gaskets. Please do not forget it during installation to avoid that the box cannot be fully opened.

2. Please check whether the packaging is in good condition and the accessories are complete. If there is any problem during using, please contact us and we will try our best to solve it.
