### Mobile heat comb

For those who pursue their own personality  
As a hairstyle and makeup team for fashion magazines Fashion hair from Paris.  
The hairstyle created from that studio work In a sense, I want to spread it to ordinary women The hair salon was born.  
Fashion hair based on different hair quality Careful styling tools and styles With a wealth of knowledge and experience, we recommend using "Advanced Hair Care" and We will provide you with joy and brilliance every day.  
Advanced hair care Not made of hair that suits everyone, but take advantage of trends Propose a hairstyle that suits each client.

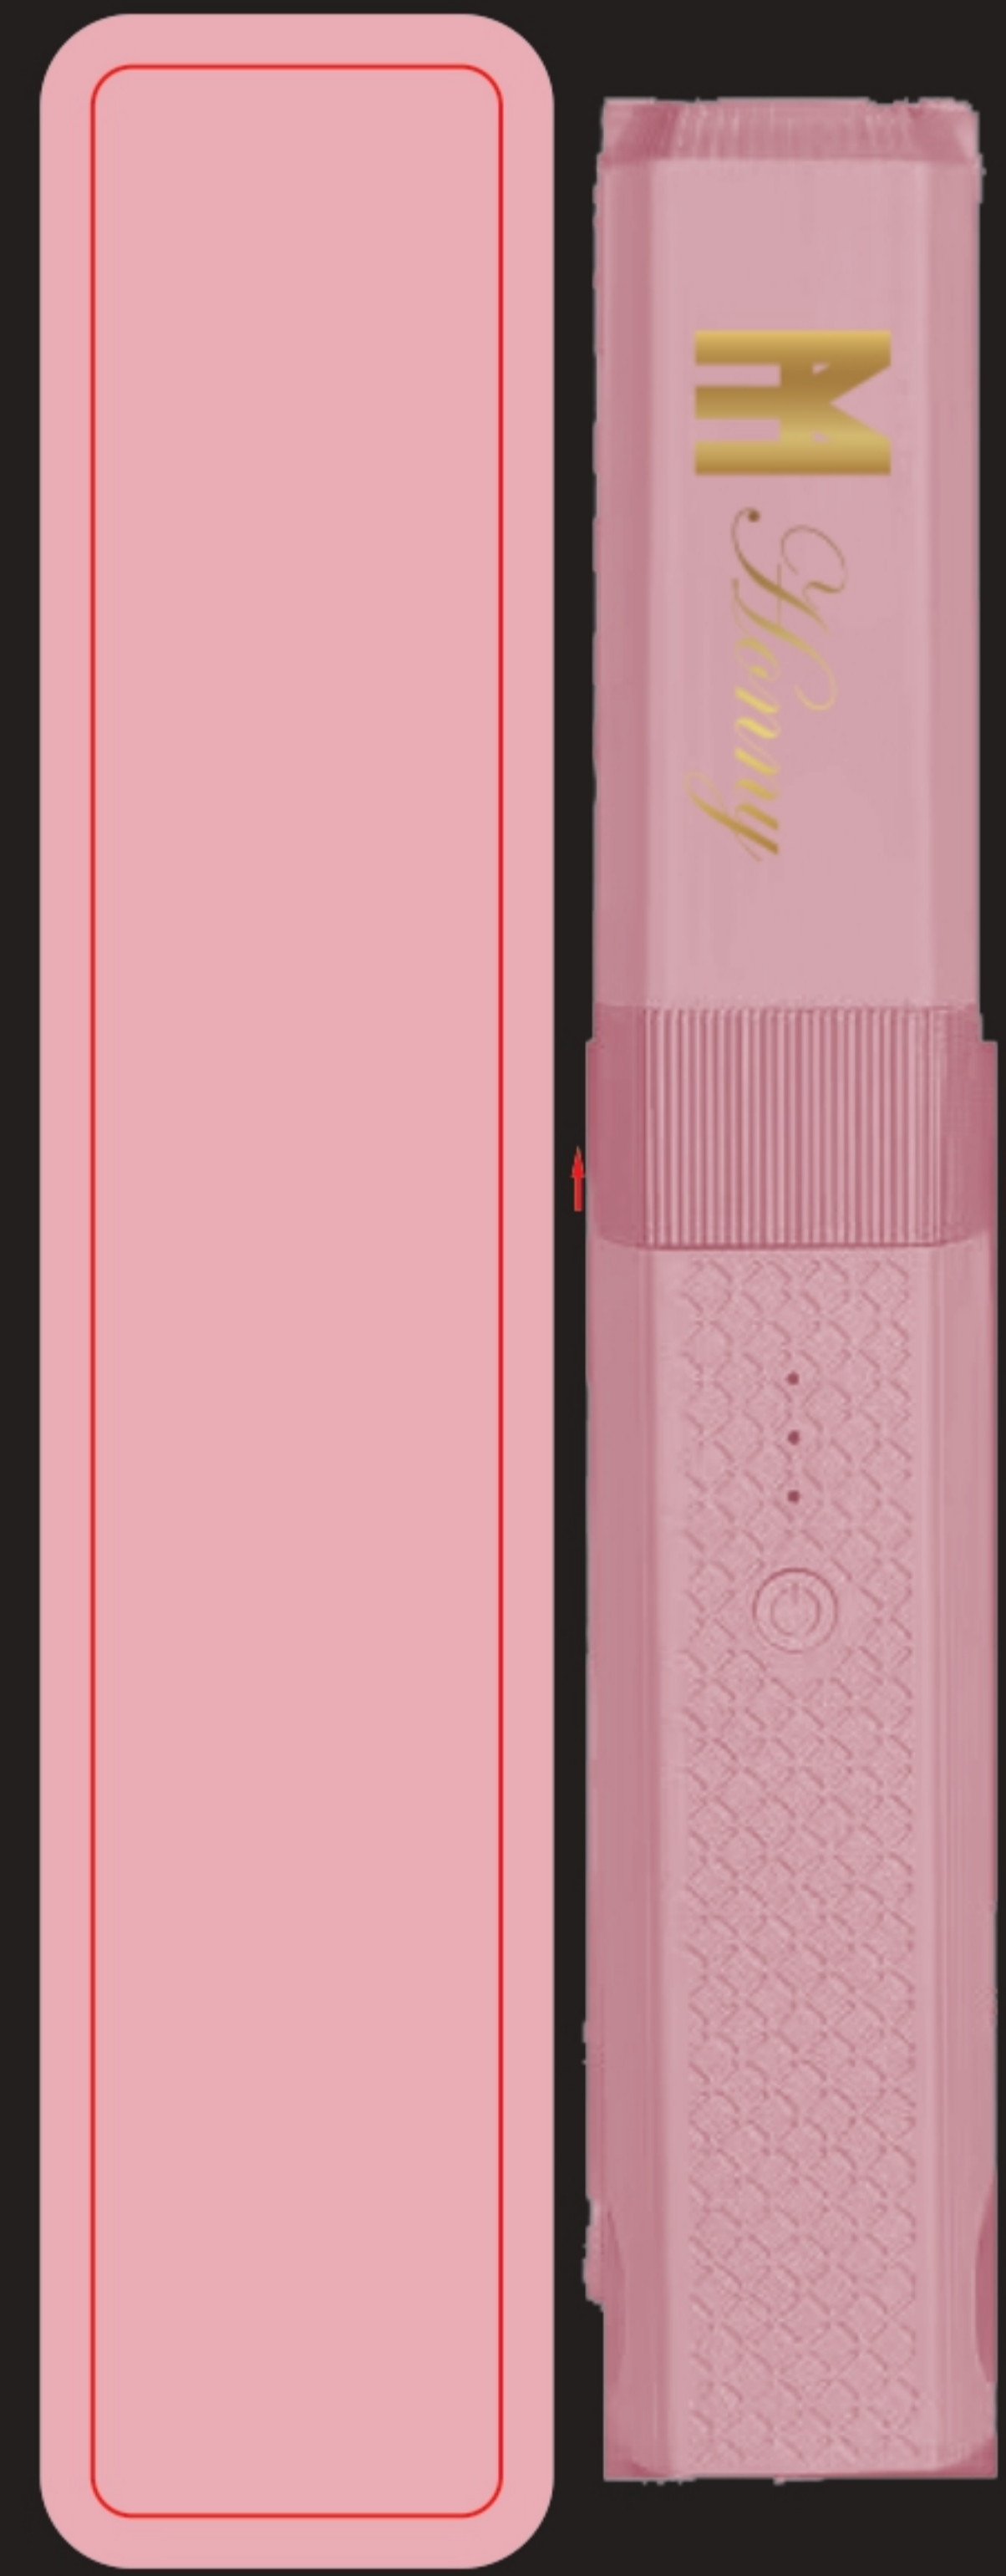

■ Simple operation comb type  
Because it is a normal comb shape, it is easy to use on the roots and a small part of the hair. The straightening comb does not touch the skin directly, so it will not hurt the face and other parts.

■ Quick Repair  
By combing the hair with hot hair, the hair can become sticky and shiny. It is suitable for partial repairs during the journey, such as bangs and hair polishing.
