

ba 巴酷®

ba-2021
Laser Printing MACHINE

Small size
high power
industrial grade
fast speed

Laser power:20W	Power:220V±10f%, 50Hz±5%
Engine power:≤800W	Environment temperature:-10°C~65°C
Marking precision:≤0.001mm	Repeat accuracy:≤0.001mm
Marking speed:≤10000mm/s	The depth of the marking:0.015-0.5mm
Cooling way:Built-in air cooling	Marking wide:175*175mm
Wave length:1.06 μm	Line width:0.05~0.01mm
Equipment size:300*538*588.5mm	Equipment weight:21.2KG

Autofocus:

One-button autofocus,
eliminating the trouble
of inaccurate focusing

field mirror:

import lens

wide focusing range

excellent light sense

uniform illumination

Vent section:

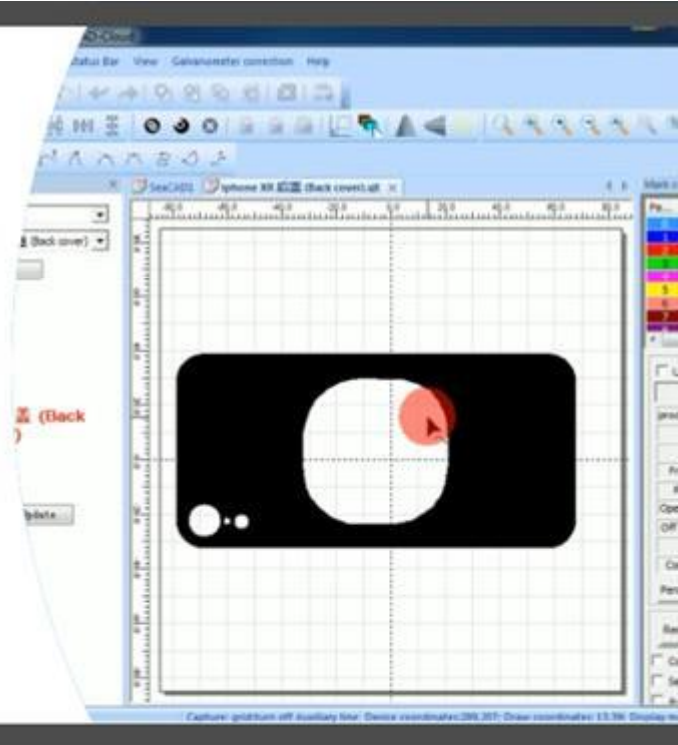

Prevent damage due
to excessive machine
temperature

Extend service life

Aluminum alloy table
standard positioning hole
fine polishing
integrated cutting

With all new model of
cellphone, and update
when it have new model.
No need to setting,

THE SAMPLES SHOW
