

• FAQ and Treatment

No.	Problem	Possible Cause	Trouble-shooting
1	Sneezing or clicking noise heard during the action	The noise of normal operation or the abrasion of massage bal and cloth cover	No need to process
2	Fails to boot	Overheat protection	Close for 30m and reboot
		Power plug or cigar lighter socket is not well inserted	Insert it again
		Reversing switch is on its middle position	Switch to left or right

If there is still any unusual problems, please contact local dealer for maintenance or repair.
