One Power Bank to charge all of your devices. With the Rover that dream becomes a reality. A powerful 45W USB-C PD (Power Delivery) in-/output means that having this Power Bank in your bag allows you to charge your smartphone, tablet, and even your laptop, everywhere you go.

The Power Bank Rover features Quick Charge 3.0 technology, allowing extra fast charging of mobile devices. If your smartphone uses the same technology, it will charge up to 85% faster!

\*Please note: Not all devices have this technology, check the documentation of your device carefully to see whether it is QC 3.0 compatible.

XB3 Power Banks feature an intuitive design, high quality materials, and class leading specifications. They feel great in-hand and are a joy to use, making the Rover the ultimate mobile charging solution.

The Xtorm Power Bank automatically stops charging when the connected device is fully charged. This means you do not have to worry about overloading your mobile devices.

All Xtorm products have a 2 year warranty in case something goes wrong. We ensure that you will receive a replacement if the product fails within 2 years.
