L33T GAMING

DPI ADJUSTMENT

When clicking the DPI key (7), the DPI settings will change and your mouse will either get faster or slower, depending on the setting you choose.

Each click on the DPI key (7) will make your mouse blink shortly with a color indicating the current DPI setting.

RED = 500 DPI   BLUE = 1,000 DPI
GREEN = 2,000 DPI   ORANGE = 4,000 DPI
PURPLE = 8,000 DPI   CYAN = 12,000 DPI (Interpolated)
