Intelligent pressure detection
The Model X was designed with intelligence in mind. The advanced pressure detection and stop functions prevent you from over-filling your tires! Just simply press start and the device will stop inflating once the preset pressure has been reached. Intelligent pressure detection makes the Model P tPump smart and easy to use!

Cordless & portable design
Due to the compact mini design, the tPump Model X is absolutely travel friendly! This cordless device is easy to carry around in your back pocket, backpack, or car compartment for emergencies.

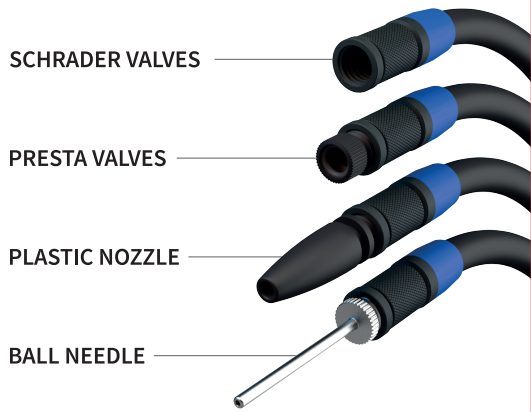

LCD screen
The advanced technology LCD touch screen provides real time pressure so you can always monitor the active pressure without bending over to check the bottom.

Multipurpose use
The tPump Model X is versatile and suitable for bicycles, motorcycles and cars with its maximum inflatable pressure of 150PSI or 10,34 bar.
