Sustainable Design

Are you done buying a lighter every time? You can solve this with the sustainable design of this Allkinds electric lighter. The plasma lighter lasts a long time because it is rechargeable and has a sturdy and compact design.

Easy and safe to use

The electric lighter with USB is very compact and easy to carry with a length of 88 millimeters and a width of 60 millimeters. Moreover, this electric lighter is flameless and therefore wind-resistant. This makes it easy to use the lighter outdoors.
