

CAPELLI. BRUSHLESS HIGH SPEED HAIR DRYER

Item Name : High Speed BLDC Leafless Hair Dryer
 Item NO. : G1
 Rated Input : 110-125V / 220-240V, 50/60Hz
 Rated Power : 1400-1500W
 MADE IN CHINA

HOW TO USE YOUR PRODUCT

Please be carefully read the "important safety instructions" before using your product.

TAKE CARE OF YOUR PRODUCT

- Please do not carry out any maintenance or repair work not mentioned in the operating instructions or not recommended by after-sales service personnel.
- Please remove the power plug before inspection.
If the product can not run, please first check whether the power socket is powered and whether the plug has been correctly inserted into the socket and the supply voltage correct or not.

DISPOSAL

- This product is made of high-quality recyclable materials, please recycle as much as possible.
- The recycle sign indicates that the product shall not be disposed as domestic waste within where of country of sale.
- In order to prevent uncontrolled disposal from causing harm to the environment or human health, please recycle in a responsible way to promote the sustainable reuse of materials.
- To return the used product, please contact the retailer who sold the product and they can safely recycle the product without polluting the environment.

NAMES AND CONTENTS OF TOXIC/HARMFUL SUBSTANCES

The hazardous substances are classified according to components to meet the laws, regulations and other requirements in where of country of sale.

Part Name	Hazardous Substances					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr(VI))	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
PCBA	X	O	O	O	O	O
Plastic parts	O	O	O	O	O	O
Metal parts	X	O	O	O	O	O
Wire and interface	X	O	O	O	O	O
Accessories	X	O	O	O	O	O

This table is prepared in accordance with the provisions of SJ/T 11364.
 O The content of the hazardous substance in all homogeneous materials of the component is below the limit specified in GB/T26572-2011.

X The content of the hazardous substance in one homogeneous material of the component exceeds the limit specified in GB/T26572-2011.

The hazardous substance contained in the components marked "X" cannot be replaced due to the limitation of global technology.

PCBA: Including Printed Circuit Board and its subassembly electronic components.
 Your product may not contain all of the above components depending on the product model designed.

Electronic and electrical products sold within the People's Republic of China will be printed with the symbol of "Environmental Protection Period" (EPP).
 The number in the circle represents the general environmental protection period of the product.

OPERATION PRECAUTIONS

- As the nozzle with magneticon, please stay away from pacemakers, defibrillators, credit cards and electronic storage media in order to prevent any risk of fire, electric shock and interference injury.
- This product can not be used by those with sensory impairments or intellectual disabilities or those without related experience and knowledge (including children), unless they are under the supervision and guidance to ensure that they can use the product safely.
- Please do not use this product as a toy. Please take care of children when they use or approach it to make sure that they will not play with the product as a toy.
- If this product is used in the bathroom, please remove the plug after use. When the plug is connected, even if the product has been turned off, it may cause electric leakage if it is close to the liquid.
- Warning!
Do not use this product near bathtub, shower, washstand or container with liquid.
- Once the power cord was damaged, in order to avoid any danger it must be replaced or repaired by any one of manufacturer, agent or repaired personnel with relevant qualifications.
- This product is equipped with a non self-resetting thermal safety cut-off device to prevent the product from overheating. If the power is cut off, please remove the plug from the main socket to cool it down.
- Attention: In order to avoid the danger caused by accidental reset due to thermal cut-off, this product cannot use timer for power supply, cannot be connected to the circuit regularly opened and closed by the utility sector and can not be connected to any socket with unstable power or may be closed.

OPERATION PRECAUTIONS

- In order to provide extra protection, it is recommended to set the rated leakage current not exceeding 35mA when installing the residual current device (RCD). Please ask the installer to help.
- Do not use this product for any other purposes except drying your hair.
- Do not touch the plug or any part of the product with wet hands.
- Do not pull the power cord with force. Please hold the plug rather than the power cord when to pull off the plug. Do not use extended cable.
- Do not pull or press the power cord with force. Keep the power cord away from the heat surface. Do not wind the power cord on the product.
- Do not use the product and contact us when it is not transported according to the design, seriously impacted, damaged by falling from a height, placed outdoors or falling into water.
- Do not put the product at work on a soft cushion or blanket.
- In order to increase protection, it is recommended to install a residual current device (RCD) with rated working current not exceeding 30mA in the power circuit of bathroom. Please contact the RCD installer.
- After the hair dryer blows hot air, the air outlet and nozzle will be hot. Please do not touch it to avoid scalding.

OUR CUSTOMER SERVICES

Thank you for choosing our products!

If you purchase a **PROFESSIONAL VERSION** of the product (3.3m long cord), you will enjoy the **HALF-A-YEAR** warranty service free of charge from the date of purchase.

If you purchase a **HOME VERSION** of the product (1.5m long cord), you will enjoy a **TWO-YEAR** warranty service free of charge from the date of purchase.

If you have any questions or have to repair the product, please contact your local agent for after-sales service.

VALID WARRANTY TERMS AND CONDITIONS

If the fault caused by functional failure is found within the warranty period after purchase or delivery, the product can be repaired or replaced (The repair or replacement is at the discretion of the party who provides the warranty. If there are no available parts or the parts have been discontinued, the party can use the parts with complete functions)

- The brand maker or authorized agent will provide the warranty service after receiving the original delivery certificate or purchase receipt. All work will be done by the brand maker or its authorized agent.
- Any part replaced by this brand will be owned by the brand maker.
- Repairing or replacing the product within the warranty period will not extend the warranty period.
- The warranty service is a supplement to the legal rights of consumers and does not affect your legal rights.

UNDER WHAT CIRCUMSTANCES IS THE WARRANTY INVALID

We will not provide the warranty service (repair or replace) if the functional failure is caused by the following causes:

- Damage caused by failure to follow the recommended maintenance plan.
- Accidental damage caused by misuse, negligence, carelessness or failure to operate the product according to the operating instructions.
- Use the product for any other purposes other than drying your hair.
- Use the product for dedicated or commercial purposes.
- Do not use the product or parts according to the operating instructions.
- Use the parts or accessories purchased through unofficial sources.
- Installation error (except for the installation provided by the brand maker).
- Repair or replacement carried out by others (rather than the brand maker or its authorized agent).
- Normal wear (e.g. fuse, etc.).

If you have any questions about the warranty scope, please contact our distributor. The warranty takes effect from the date of purchase (except for late delivery).
