

Music button

Press the music button to listen to 8 Music. Funny sound effects will be added to the music when you play the washing machine, milk bottle or tissue box.

Curtain game

Open the Velcro curtain, you will find a colorful playroom. It encourages your baby to learn and recognize the objects of life.

Montessori education

Montessori toys are designed to encourage learning through play and stimulate a child's manipulative skills, observation, and imagination. These skills are important for hands-on learning and kids' development.

Flower

Pinching and pulling the flower ball, is helpful to train your baby's fine motor skills.

Tissue box

Different fun sound effects play when you pull the tissue out of the box or put it back.

Lamp

Press the light button near the lamp, you can turn on or turn off the light. The light will change the color every time you turn it on, 7 colors in total.

Drainpipe

Pinch and slide the three colored beads on the drainpipe to exercise your baby's fingers.

Washing machine

Turn the drum of the washing machine, the clothes inside will roll along. It will play realistic sound effects and create a sense of real scene.

Milk bottle

Pull the milk bottle out, it will play fun sound effects and music. The bottle cap is also twistable.

Refrigerator

Open the door of the refrigerator, you can teach your baby to recognize the foods inside. Push the door to close, is another way to exercise the little hands and help your baby develop a good habit of closing the door at will.
