

BARDIG - The Adventure Party Game is the unholy result of a one night stand between card-based role-playing games and a mostly ridiculous party. This easy to learn, pick-up and play party game combines hilarious group shenanigans with take-that item cards and a dice to determine turn.

The original **BARDIG** comes packed with 10 characters each with their own hilarious group challenge and 12 types of item card to change the game at every turn for an added edge of hilarity!

BARDIG After Hours takes the Adventure Party Game to the darker side of the tavern as a standalone sequel game with new characters and items that doubles as a fully modular expansion.

The ultimate toolkit to bring alive a night with friends through oinks and squeals of **BARDIG** delight! ...Oh, and there will be pigs!
