The Aputure Accent B7c is a 7-watt battery-powered RGBWW smart LED light bulb designed with filmmaking in mind. The B7c provides creators with flicker-free lighting control while maintaining impeccable color quality. The built-in battery allows you to unleash your creativity with limitless flexibility and makes searching for power a relic of the past.

The Accent B7c gives filmmakers the freedom to create. Powered by Sidus Link, the B7c utilizes Sidus Mesh technology, allowing you to control the B7c from your smartphone or tablet without a Wi-Fi router.

The perfect light bulb for motion picture lighting is finally here.
