

COOLING GEL PATCH

Main ingredients

Hydrophilic molecules and macromolecule material, mint, borneol, water

Indications

Suitable for both children and adults' fever, toothache, headache and refreshing.

Application instructions

Open the packaging and remove the cooling patch. Remove the transparent protective film and place the side with the cooling gel on the desired body part. The patch sticks to the skin by itself thanks to the hydrogel.

Safety Information

1. For external use only.
2. Avoid direct contact with the skin near the eyes and mouth.
3. Do not use on sensitive skin.
4. Children should not use the cooling patch without supervision.
5. The cooling patch is a single use product.
6. Storage: Store the cooling patch cool or in the shade and not in direct sunlight. Chilled storage (not frozen) can improve the cooling effect.

Shelf life: 2 years

Date of production: 2024/2/20
