DIACÉ FIXTAPE

The Diacé Adhesive patches holds the sensor in place and prevents the sensor from being lost. The material is water resistant and stretchable. The fixtape is suitable for all activities.

STEP-BY-STEP GUIDE

- 01** Carefully remove the backing paper from the patch
 - 02** Apply the patch around your sensor. Don't hesitate to stretch it slightly
 - 03** Finally, firmly press down the edges of your patch
- TIP** Give your skin a moment to recover between changes
