

LED STRIP LIGHT

- Always strip the tape light before installing, cutting or modifying in any way.
- Do not strip light before attaching to a power source.
- Cut only at designated marks.
- Do not tape to be attached before attaching to a power source.
- Cutting or damaging outer plastic tubing can prevent an effective seal.

STRIP LIGHT

- Collegare sempre prima di alimentazione prima di installare, tagliare o modificare in qualsiasi modo.
- Non strappare prima di attaccare alla fonte di alimentazione.
- Tagliare solo in presenza del simbolo indicato.
- L'alimentazione deve essere sempre prima di collegare ad una fonte di alimentazione.
- Tagliare o danneggiare il tubo in plastica potrebbe causare un'inefficace sigillatura.
