Xiaomi Redmi AirDots Quick User Guide

By Joe Horner 2019-08-22 78984 views 0 likes

I believe many friends must be familiar with Xiaomi Redmi AirDots. It is a perfect alternatives to Apple Airpods, which have a high cost performance. But for people who use Redmi Airdots for the first time, do you know how to use it? Do not worry! Here is a detailed AirDots instruction and tell you how to use the Redmi AirDots.

First pairing steps

Step 1: Take out the two headphones from the battery box will power on automatically.

Step 2: Refresh the Bluetooth device of the mobile phone, pairing the "Redmi AirDots_R". The left ear does not need to be matched separately. It can be connected automatically.

Note:

- The phone needs to support the voice control function and turn on the quick wake-up setting.
- The Xiaomi Redmi Airdots supports Xiaomi **Xiaoi voice control**, **Siri** and **Google Assistant**.
- The Redmi AirDots supports third-party chat and voice input on iOS, while the Android OS uses the phone microphone by default when entering voice.

4. Volume adjustment

The Xiaomi Redmi Airdots **do not support the volume adjustment**, you need to adjust the volume by your phone.
