

IV. Preventive Maintenance

1. To prevent the clogging of the glue gun, keep feeding mechanism and melt chamber free from dirt and other foreign debris. Store unused glue sticks in a clean environment.
2. Do not lay heated gun on its side. Keep the heated gun in an upright position, on the metal stand or workbench, with nozzle pointed down.

WARNING:

1. When using this hot melt glue gun, always follow basic safety precautions. This will reduce the possibility of accidental injury due to burns or electrical shock.
2. Always wear safety glasses and protective gloves and clothing. Long sleeve shirts and pants.

V. Safety Instructions

- **The operation of any power tool can result in foreign objects being thrown into the eyes**, which can result in severe eye damage. Always wear safety glasses or a wide vision safety mask when working with this tool.
- **If you accidentally touch the molten hot glue**, immediately immerse the affected area in cold water and call a doctor. The injured area should be attended by a medical professional.
- **The glue gun should be unplugged after use or if it will not be used within 2-hour period**. The adhesive can be stored indefinitely in the unheated gun and re-melted by heating up the tool.
- **Work area**. This tool was designed to be used on a clean, dry work surface. Excessive dust and dirt may reduce the lifetime of this tool. Do not use in wet or damp locations. Your work areas should keep well lit.
- **This tool is recommended for indoor use only**. Do not use outdoors.
- **Keep children away**. Small children should be kept away from work area. Accidental contact with tool or extension cord should be avoided.
- **Glue gun storage**. After use, allow glue gun to cool completely prior to storage. When not in use, the glue gun should be stored in dry and secure location out of the reach of children.
- **Electrical cord precautions**. Do not carry the tool by the cord or yank to disconnect from the receptacle. Keep the cord away from the nozzle or other high heat sources. Periodically inspect the electrical cord for any sign of wear or damage.
- **Disconnect electrical power**. When not in use, before servicing, and when changing. Do not yank on cord to unplug from electrical receptacle.
- **Stay alert**. Pay attention to your work. Beware of any dripping hot glue from your project. Use common sense. Do not operate this gun when you are tired. Do not operate under the influence of alcohol or other drugs that may impair your physical abilities.
- **Do not touch the heated nozzle of the glue gun or the hot adhesive**. The operating temperature of this tool is about 200°C.
- **Use recommended accessories**. Use only recommended adhesives in this glue gun. Putting other materials than recommended may result in accidental injury and permanent damage to the glue gun. For example: do not attempt to melt crayons or candles.
- Never use the tool if it is damaged in any way. Hot melt adhesives are not a replacement for structural fastener.
- **Hot melt glue should not be used for projects that will be exposed to extreme heat**. Some adhesive used with this glue gun can soften at about 70° C. We have special glues for use with higher temperature.
- **Do not expose the glue gun to extreme changes in temperature during or directly after use**. Never immerse glue gun in water or other liquids to speed cooling process. Allow the gun to air cool only.
- **Children should not use this glue gun**, only under the direct supervision of a responsible adult.
- **Do not leave the glue gun unattended while plugged in or in a hot condition**.
