

Silicone material : the barbecue oven gloves outer is made of waterproof silicone and the inner is a cotton layer. The Silicone oven mitts are made from premium food grade material.

Heat-Resistant till 231 °C, not only defense against steam ,hot liquids and heat, but also is soft enough on the inside that they do not rub

100% Waterproof : Confidently grab lobsters, egg and canning jars from boiling water - juices, fish soup and gravies can slosh - won't soak like your old cotton mitts!

PINCH GRIPS: The each mitt is suitable for both left and right hand, you can slip them on and off easily . The soft silicone material makes you feel comfortable. With the design of antiskid, you can handle slippery items firmly. Our mitts are easy to get clean by hand-washing or machine-washing.
