

Bluetooth Music receiver – for speaker docks
with 30 pin Apple dock connector

Product Features:

- Easy to use – convert any ipod/iphone/ipad dock with 30 pin connector to a Bluetooth Speaker System
- Compatible with any docking system that works with iPhone 4/4s, new iPad (3) and previous devices with 30 pin dock connector
- Compliant with Bluetooth 5.0, supports A2DP V1.2
- Compatible with all Bluetooth devices that support wireless music transfer (A2DP)
- (Dock must charge iPods to power the device)

Instructions:

- Connect the "i-Wave" receiver to the speaker dock's 30 pin connector, A blue and red alternating flashing light will signify "pairing mode"
- Enable Bluetooth for the device you want to connect, ie iPod, phone, pc etc – "I-WAVE" will be in the list of available devices – select and pair
- If prompted, enter pin code – 0000
- After successful pairing, music will now be played wirelessly to the dock, A flashing blue light will confirm successful pairing
