

How to Play

1. Choose an Identity

Choose a Player Identity Card and place it face up in front of you. Collect a Voting Card for every person playing. This identifies every player with a picture for voting purposes, for when you vote for your friends.

2. Ask the Question

The last person to arrive starts as The Dictator. The Dictator picks up a Question Card and reads it out loud.

3. Cast the Votes

The Dictator silently votes by putting the matching Player Voting Card face down in front of them. Each player then casts a silent vote by guessing who the Dictator voted for.

4. Reveal your Vote

Then - Everybody takes turns one-by-one revealing their vote, ending with the Dictator.

Did you vote the same as The Dictator? If you did, you get 1 point!

Unless you used your Double Down Card. Then you get 2 points!
