

Stagg®

5µm Graphene Vibration Film

Graphene, made of carbon atoms, is 100 times harder than steel. This ultrathin material ensures the diaphragm has better conductivity, for a stronger signal, and reduces sound distortion.

Magnetic Flux Close to One Tesla

The specially designed, small high-energy magnet is close to the magnetic flux of one tesla, giving it greater driving energy with higher resilience. This also allows the diaphragm to feature better sound detail and dynamic performance than a conventional moving coil.

Stagg®

High-resolution, sound-isolating earphones, black

Frequency range: 7 Hz – 40 kHz

Sensitivity: 108 db SPL

Impedance: 30 ohms

Plug: 3.5 mm (1/8") mini jack

Cable length: 1.2 metre (4')

Weight: 20 g (0.04 lb)

Included: EVA foam case,
3 pairs of memory foam buds,
2 pairs of rubber buds

Colour: Black
