QUICK TIPS

- When connecting through Bluetooth on Mac/PC/Android, GO Keyboard should be in Bluetooth 1 or Bluetooth 2 setting. Press hold CONNECT button until the light starts blinking. Enter your Bluetooth device settings to connect.
- If your device is not connecting, Forget the “JLab GO Keys” in you device settings. Turn off and on the the GO Keyboard. Press hold the CONNECT button until blinking light to enter pairing mode. Reenter your device settings to repair.
- If the 2.4G USB dongle is not registering connection:
 1. Remove dongle
 2. Press Fn + 1 to enter 2.4G connection
 3. Press and hold CONNECT button until purple light blinks
 4. Plug dongle back in
- Keys are non-removeable. Do not try to remove in any circumstance.
- To clean the keyboard, do not use spray cleaner directly on the keyboard. Lightly spray a cloth or microfiber fabric and then wipe the keyboard.
- To completely disconnect all wireless devices and return to factory settings, press hold "T"+"H"+"J" for 3+ seconds.
