### Hearing Aid Compatibility<sup>1</sup>: M3/T3

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your wireless provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your wireless provider or phone retailer.

Best 5G performance requires optimal network connection; 5G is still developing. Not all devices & signals are compatible; may not support 5G tethering.
