From occasional bladder weakness to heavy incontinence, leaks are a natural part of life. To keep you confident and comfortable, Sanature Pro Vivo cotton pads offer maximum absorbency while allowing your skin to breathe, therefore preventing irritation. Extra soft and odour neutralising for worry-free protection against all intimate fluid leaks, also offer giving birth.

Disposable device. Re-using may cause microbial contamination for the user. If the skin becomes severely irritated, you need to consult a medical professional. Any serious incident caused by the medical device shall be reported to the manufacturer and the competent authority of the State in which the user is established.
