TRAMYS46730

DESCRIPTION

Enter the game in an impressive way with Tracer GAMEZONE Reika gaming mouse. Outstanding design and look, RGB backlight, 6 buttons and a sensitive optical sensor are all you need in your virtual adventure. Tracer Reika mouse belongs to the popular Gamezone line, created especially for gamers who value the combination of the highest quality and advanced features of gaming devices.

- Optical sensor and 7200 dpi resolution.
- Teflon sliders.
- Ergonomic design and e-sport character.
- Perfect for right-handed gamers.
- Unique design.
- 10 million clicks.

Dedicated for right-handed gamers

Custom shape designed with right-handed users in mind provides adequate support for the hand and relieves the burden on the wrist during many hours of gameplay. The Tracer Reika mouse is suitable for any game type, regardless of whether you prefer shooters, RPGs or strategies. By precisely reading the mouse button clicks, our Tracer mouse will do everything to help you defeat your opponents.

Teflon sliders and optical sensor

COOKIES

The accuracy and precision of shots is provided by an optical sensor working at a maximum resolution of 7800 DPI. Durable

COOKIES
Teflon sliders ensure smooth and precise mouse movements and the highest control over the game. Endurance of 10 million

clicks means up to 10 million commands issued in the game.
