Adjustable range: From the installation plate center vertical distance 200mm	

M Universal Projector Ceiling Mount
200 with finetune

- Be sure to read this manual thoroughly and to do the installation work safely. Keep this manual available for future reference.
- Sufficient expertise is required for installing this projector ceiling mount.
- Do not use the projector ceiling mount for purposes other than for which it is designed.

Important Safety

- Be sure to read this manual thoroughly to do the installation work.
- Only qualified service personnel (two or more) should carry out installation or dismantling of the projector from the projector ceiling mount.
- **Use with products heavier than the maximum weights(Weight Capacity : <10kg) indicated may result in instability causing possible injury.**
- For safety reasons, check the strength of the ceiling before installation. If the ceiling is not strong enough, reinforce it sufficiently before installation.
- Do not make alterations to the projector ceiling mount.
- Do not install the projector ceiling mount on a ceiling subject to vibration or impact.
- To avoid fire, do not install the projector with the projector ceiling mount in a humid or excessively dusty place.
- Use the supplied accessories only. Use of accessories other than those supplied may result in damage to the projector ceiling mount.
- When dismantling the projector from the projector ceiling mount, be sure to unplug the AC power cord and other connecting cables beforehand.
- Do not hit or hang any heavy objects on the projector ceiling mount. If the projector ceiling mount is damaged, stop use and contact a qualified service person immediately.
- Please install this apparatus only on the horizontal surface instead of the slanting one.
- + Manufacturer is not liable for any damages or injury caused by mishandling or improper installation.
