

Adjusting the chin straps:

The adjustable slides at the straps should be positioned straight under the ear so a "Y" form exists. You can adjust the length of the straps through the buckle.

Adjusting the Turning lock:

To guarantee optimal fastening of your helmet, you must use the turning lock correctly. After you positioned the helmet correctly on your head through the straps the last thing you have to do is tighten the turning lock. The turning lock has two turning directions to tighten or loosen the helmet. Rotate the turning lock until you feel your head is secured and comfortable and not too tight.

NOTE: Please check adjustment every time this helmet is worn.

Extreme temperature conditions may damage the helmet. Do not leave it in places where such conditions exists; e.g. in the back of the car.

Guarantee:

Findway has a six-month limited warranty on all its helmets from the date of purchase. A helmet with proven material or production mistakes will be repaired or replaced provided that the helmet will be returned within three year after purchase. Laps of guarantee will occur in the following Situations:

- Damages caused by improper use
- Damage arising from not correctly taken care of the product.
- Wearing the wrong size with a wrong fit as result.
- Do it yourself adjustments.
- Using the helmet at an other way than the supplier instructed.

The helmet can only protect if it fits well and that the buyer should try different sizes and choose the size which feels secure and comfortable on the head;

A helmet cannot always protect against injury;

A helmet subjected to a severe impact should be discarded and destroyed;

The product has passed EN1078:2012+A1:2012 to show conformity to the respectively Regulation EU 2016/425 and Regulation 2016/425 on personal protective equipment, as amended to apply in GB.

Lifetime: 3 years.
