

Technical Specification

Earfoams for Sleep

TECHNOLOGY

Earfoams are designed to suspend the metalwork in the ear and stop any transfer of sound to the ear drum. Dual-tips allow the user to put a larger size on the outside to act as a large cushion on the ear.

HOW MANY DO I GET?

In each replacement pack of Earfoams you'll receive three sets of your chosen size.

MATERIALS

Super-soft memory foam exterior
Durable silicone inner core

SIZE (diameter)

Extra Small | 9mm
Small | 10.5mm
Medium | 12.5mm

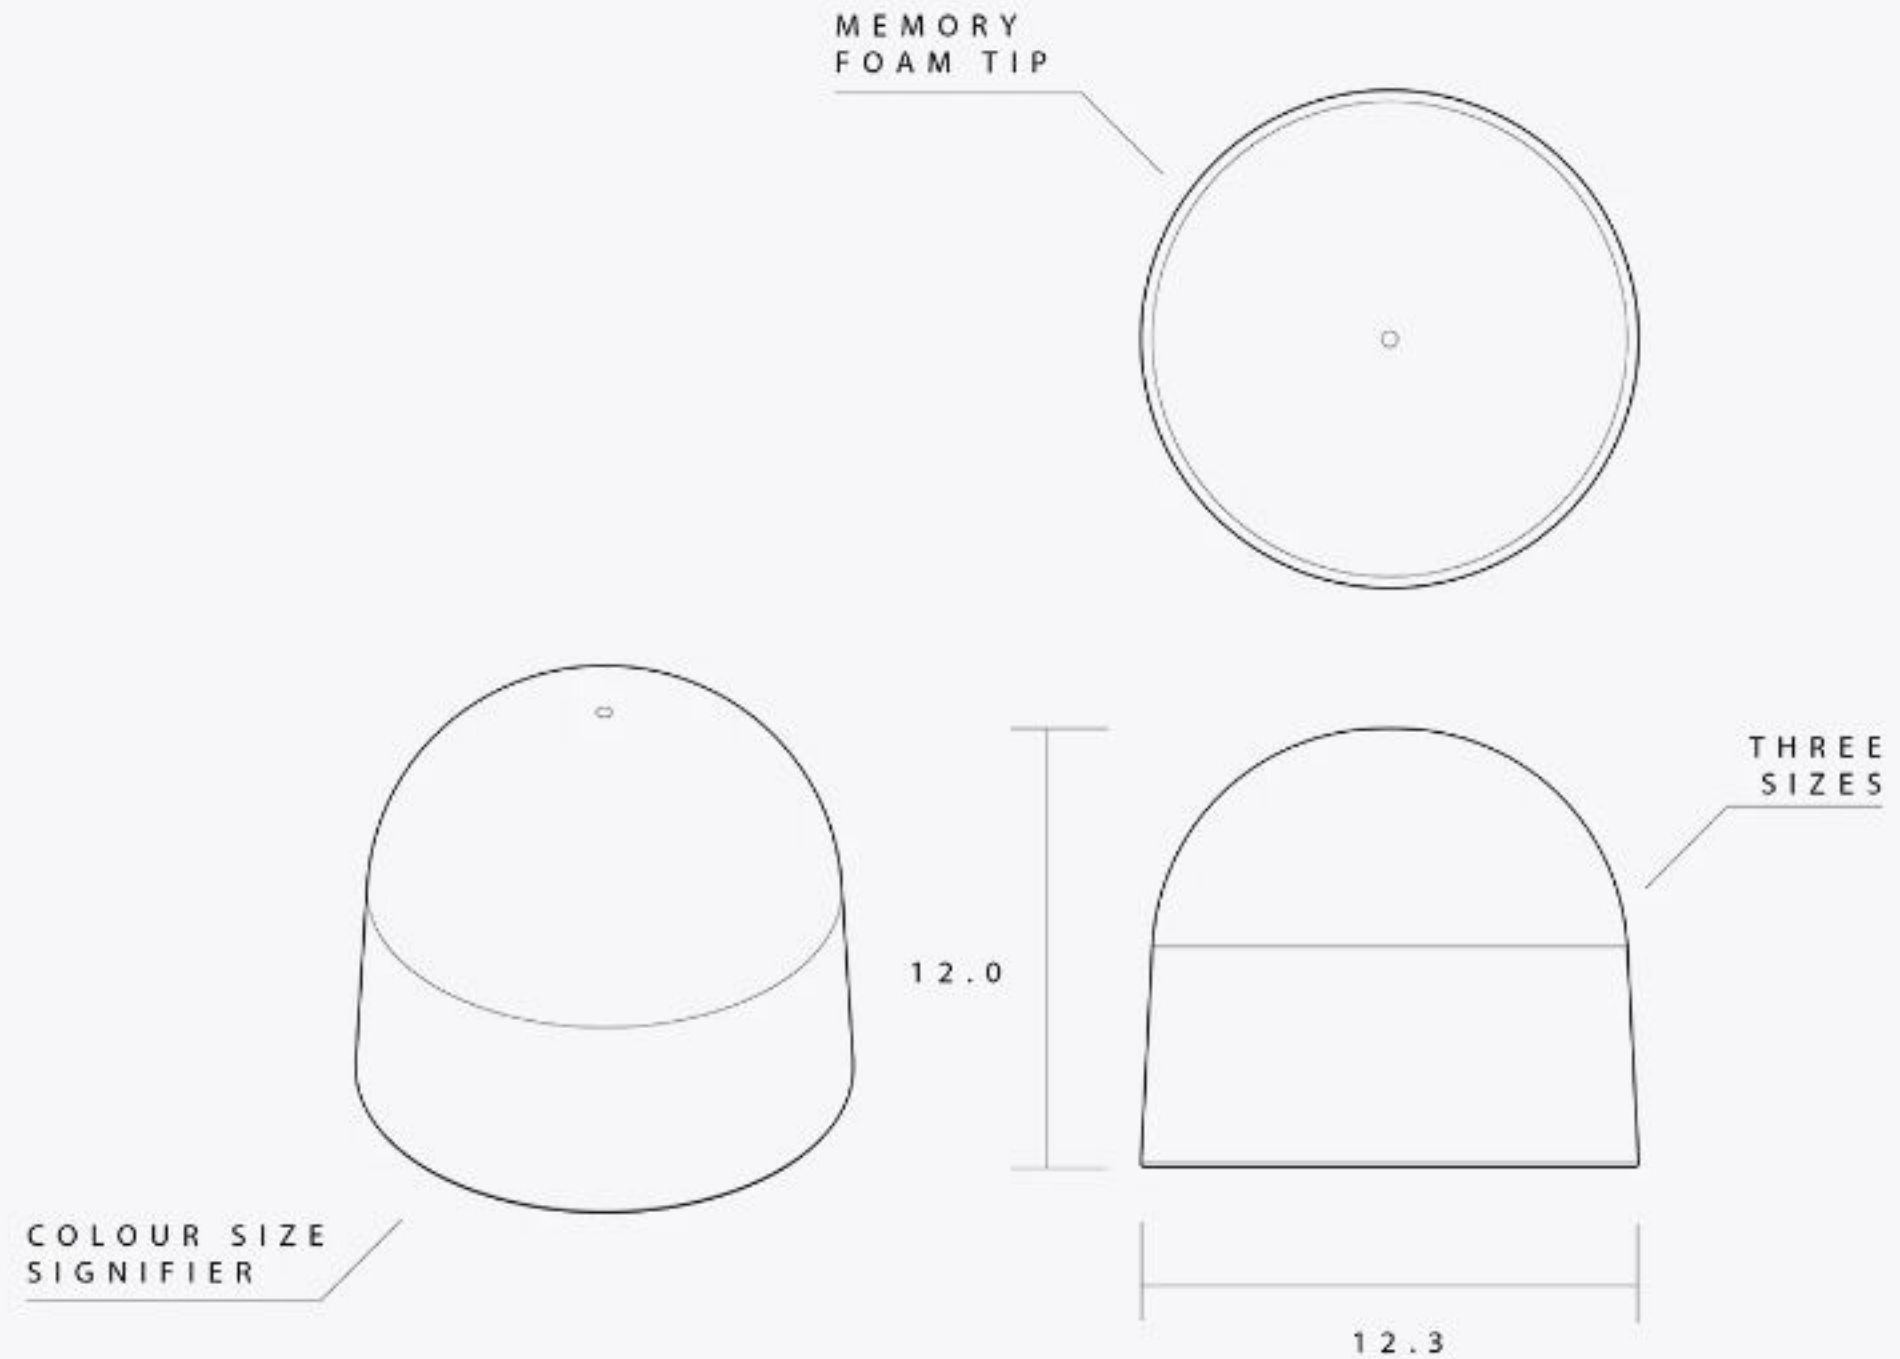

COMPATIBLE WITH

Sleep earplugs purchased between August 2018 - December 2020.

PACKAGING

We are committed to reducing our production of single use plastics. This is why Sleep comes in 100% recyclable paper packaging.

Earfoams do not contain latex
