

→ simplehuman® in-cabinet can

Our in-cabinet can hangs inside your kitchen cabinet door for quick and easy access while you are busy at the kitchen counter. For a cleaner look, it can be mounted directly onto your cabinet door with included screws. The durable plastic bucket is held in place by a chromed steel frame that is strong and sturdy, yet allows for easy lifting out and emptying. Although the bucket is grocery bag compatible, try our custom fit liners for this can — extra strong and a perfect fit.

- easy access: Hangs securely inside your cabinet door for easy access while you're busy at the kitchen counter -- then hides out of sight when you are done.
- clean and secure mount: For a cleaner look, simply detach hanging hook and mount can directly to the cabinet door.
- chromed steel frame: Holds the bucket securely in place, yet allows it to easily lift out for emptying.
- lid cover: Attaches to the frame and covers the bucket to prevent smelly odors from escaping.
- custom fit liners: Our liners are tailored to perfectly fit our cans so they don't slip and the bag stays completely hidden when the lid is closed.
