

DOUXE

T03 USB Stick 32GB

4 in 1 flash drive

Instruction Manual

1. Introduction

Thank you for choosing our Douxe product! Please always follow the instructions for safe usage.

Are you in need of some extra storage? With the T03 USB Stick from Douxe it is possible to have extern storage with this simple plug and play storage device. The T03 has four different outputs, so it it is easy to storage files, pictures or video's from every device.

2. Warnings and Safety Instructions

- ⚠ Please ensure that the packaging is kept out of the reach of children! Risk of suffocation!
- ⚠ Make sure to keep this user manual. Read the manual carefully before using your Douxe flash drive!
- Be aware of the risks and consequences resulting from misuse of the flash drive. Misuse of the flash drive can result in personal injury, or destruction of the device and of the installations.
- Use the flash drive only for purposes described in this user manual.
- If the flash drive malfunctions, is dropped or (appears to be) damaged in any manner, do NOT use the flash drive and contact Customer Service.
- The flash drive is designed and intended for private, non-commercial use only.

- Do not put objects in the slots on the exterior of the device, by doing this you can hit parts that are carrying live voltage. This can cause a fire or an electric shock.
- This device should NOT be used by persons (including children) with physical, sensory, or mental disabilities, or persons (including children) with lack of experience with and knowledge of the device, unless they are supervised or have been given instruction concerning the use by a person responsible for their safety.
- Keep the flash drive away from children when using and storing.
- Do NOT reconstruct, repair, or disassemble the flash drive. This can damage the device. For safety reasons, these parts may only be replaced by authorized service personnel. In order to prevent hazards, always send the flash drive to the service centre for repairs.
- Make sure your outlet supplies the correct power voltage to avoid damage to the flash drive.
- Always check the device for signs of damage before using the flash drive. Do NOT operate the flash drive if the device is damaged. A damaged device must be repaired by a qualified person in order to avoid damages and personal injuries.
- Do NOT use the flash drive in or near a bath, shower, swimming pool, or over a basin filled with water.
- Make sure to prevent any contact with water. Do NOT submerge the flash drive in water. If water does get inside the casing, turn the flash drive off immediately and contact our customer service.
- Do NOT operate the device with damp or wet hands.

- Place the flash drive in such a way that the cables connected to it cannot be damaged.
- Keep the flash drive away from moisture, heat and in or close to areas where the surrounding temperature is relatively hot (e.g., stoves or other sources of heat).
- Do NOT cover the flash drive when it is switched on.
- Never put blankets or cushions on top of or against the flash drive. This poses a risk of fire, electric shock, or injury.

3. Receiving Your Shipment

When receiving your shipment, make sure that the contents are consistent with the packing list. Notify your distributor of any missing items. If the equipment appears to be damaged, file a claim immediately with the carrier and notify your distributor at once, giving a detailed description of any damage. Save the damaged packing container to substantiate your claim.
