## SAFETY PRECAUTION:

- 1 Please remove contact lenses before usage. Make sure the solution does not touch your skin. If you have red eyes or any other eye conditions, please stop immediately.
- 2 Lash lift kit is only used for eyelash. If the solution gets into your eyes or causes irritation, immediately flush your eyes with cool water for 15 minutes and seek medical attention.
- 3 Please keep the product away from children.
- 4 If you have sensitive skin or are prone to reactions, use a patch test before usage.
- 5 Please keep the product away from direct sunlight to avoid damage.
- 6 The manufacturers, importers and distributors are not responsible for misuse and damage caused by this product.

## LASH LIFT DIRECTION FOR USE:

- 1 Use the #4 cleanser to remove the oil, dust, and makeup residue.
- 2 Place under eye pads on the lower eyelids, make sure all the bottom lashes are covered so that the top and bottom lashes can be separated. Avoid perm lotion touching the skin.
- 3 Select the appropriate size lash lift pads to match the curl radius of your lashes. Tip: Smaller size,curler lashes.
- 4 Apply the glue to the back of the lash lift pads, and then put them on your eyelids as closely to your lash line as possible.
- 5 Apply the glue to the front of the lash lift pads and then use a Y brush to lift the lashes from the root back onto the pads.
- 6 Use the #1 perm lotion on the eyelashes and then cover your eyes with a plastic wrap. (Perming time: 5-8 minutes)
- 7 Remove the #1 perm lotion with Y brush, then apply #2 fixation on the eyelash and then cover your eyes with a plastic wrap. (Fixing time: 5-8 minutes)
- 8 Use the #4 cleanser to clean off all residue with the Y brush.
- 9 Remove the lift pads from the upper part of your eyelid, then use the #3 nutrition lotion to nourish your eyelashes.

## BROW LASH DIRECTION FOR USE:

- 1 Clean the eyebrow with cleanser.
- 2 Apply vaseline around the eyebrow area for isolation.
- 3 Apply a thin layer of glue on the eyebrow. Straighten the eyebrow up with a brush shape it into the desired one, then wait for 30 seconds.
- 4 Apply the #1 perm on the eyebrow and then cover the eyebrow with a plastic wrap. (Perming time: 5-8 minutes)
- 5 Remove the #1 perm with a brush, then apply #2 fixation on the eyebrow and then cover the eyebrow with a plastic wrap. (Fixing time: 5-8minutes)
- 6 Clean off all residue with a brush, then clean the eyebrow with cleanser.
