Robotics for All

DEEBOT T10 TURBO

Introducing the newest mopping & vacuum cleaning robot of the ECOVACS' family: DEEBOT T10 TURBO! With the thorough 4-Stage Cleaning System and the OZMO Turbo 2.0 system that optimizes wet cleaning through rotating mopping pads, you can trust your DEEBOT T10 TURBO to clean every corner of your home, leaving a flawless result. For faster obstacle recognition our AIVI 3.0 AI-technology identifies objects and people. Manage your cleaning plans according to your needs in your upgraded 3D map in the ECOVACS HOME App. Don't have your phone around? Simply direct your DEEBOT using the YIKO voice assistant. Topped off with the clean station, never worry about manually refilling your water tank in the robot again. It supplies clean water to clean your mopping pads and it blow-dries them with hot air – for all-round hygienic cleaning.

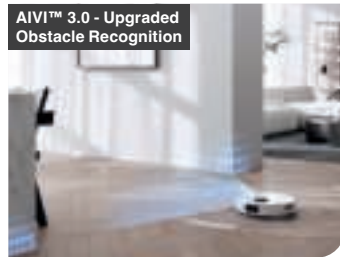

CONVENIENT AI-BASED CLEANING WITH STRONG MOPPING

4-Stage Cleaning System

A perfect combination of brushes, suction, mopping & convenience

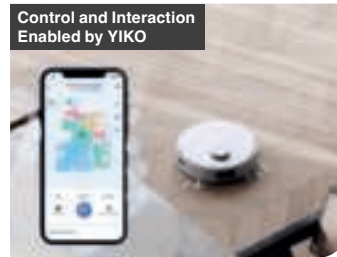

Get thorough cleaning results with the DEEBOT T10 TURBO! Thanks to its Dual-side Brushes, a floating main brush, 3000 Pa suction power and the OZMO Turbo 2.0 rotating mopping system, the DEEBOT T10 TURBO is sweeping, vacuuming and mopping your home all at once. Its high performing mopping pads rotate 180 times/minute, ensuring efficient stain removal and a deep clean.

AIVI™ 3.0 - Upgraded Obstacle Recognition

Upgraded artificial intelligence & visual interpretation technology

Driven by our cutting-edge artificial intelligence, the new DEEBOT T10 TURBO delivers by recognizing its surroundings quickly and accurately for an efficient cleaning experience. No matter if furniture, ground materials or other objects stand in the way - the DEEBOT T10 TURBO can recognize 18 different types of objects to ensure a smooth and seamless cleaning process.

Control and Interaction Enabled by YIKO

Revolutionary Control and Interaction Enabled by AI

Use your voice and control your DEEBOT via YIKO! Do you only want to clean a specific area? By saying „OK YIKO“ your DEEBOT will fulfill your wishes. What's more, with the fully upgraded map manager, you can now direct your DEEBOT T10 TURBO to clean around or under your furniture in your ECOVACS Home App. Switch between 2D or 3D maps for a precise view of your home.

TURBO Clean Station

Fully Automated - For clean and dry pads

Experience the ultimate hands-free cleaning experience with the TURBO station! This lets the mopping pads be washed with clean water and dried automatically. Hot air is used to dry the mopping pads in order to ensure a hygienic and odour-free result. The technically advanced TURBO station does all the work for you with no need to frequently disassemble or wash.

Specification

Name	DEEBOT T10 TURBO
Suction power	Up to 3.000 Pa
Noise level	ca. 68 dB
Charging time	ca. 6,5 hrs.
Battery	Li-ion, 5200 mAh
Max working time (Vacuum and mop)	ca. 150 min.
Dust bin capacity	400 ml
Doorsill crossing (with mopping plate)	ca. 2,0 cm
Weight of the robot	4,3 kg
Dimension of the robot	353 x 353 x 103,3 mm
Weight of the station	10,1 kg
Dimension of the station	430 x 448 x 441 mm
Watertank capacity (Station)	2 x 4 L
Duration hot-air drying	2 – 4 hrs.
Weight including outer packaging	19,1 kg
Dimension of outer packaging (L x W x H)	533 x 486 x 441 mm
EAN EU	6943757616084

Standard Features

Smart home compatible

High efficiency filter

Obstacle detection

Stair safety technology

Automatic charging

One touch auto start

Automatic updates

App control

Additional Features

HD starlight camera

Area-specific schedule cleaning

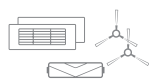

3-floor mapping

Clean station

Additional Accessories

Accessory kit

Washable mopping pads

Cleaning solution

What's in the box
