

Digital endoscope

Art. No. 9680860

About this instruction manual

Read the safety instructions and the instruction manual carefully before using this device.

Keep this instruction manual in a safe place for future reference. When the device is sold or given to someone else, the instruction manual must be provided to the new owner/user of the product.

General warnings

DANGER!

- Keep the tool dry, clean, free of oil, water, gas or other materials that may cause corrosion.
- Keep the work area clean and well lit.
- This device is not intended for use by persons with reduced physical, sensory or mental capabilities.
- This device is not intended for medical use or personal examination.
- Keep bystanders and children away while operating the device.
- Do not overreach, always ensure safe footing and balance.
- Do not expose the device to high temperatures. Use only the recommended batteries. Do not short-circuit the device or batteries or dispose of in fire! Excessive heat and improper handling can cause short circuits, fires and even explosions!

BATTERIES

- Use only alkaline or Ni-MH AA batteries.
- Replace the batteries when the LED indicator turns red.
- Remove the batteries when the product is not in use.

DANGER OF AN ELECTRIC SHOCK!

This device contains electronic parts that are powered by a power source (batteries). Never leave children unattended when handling the device! Only use the device as described in the manual. Otherwise, you run the DANGER of an ELECTRIC SHOCK.

DANGER OF BURNS!

Leaking battery acid can lead to chemical burns. Avoid contact of battery acid with skin, eyes and mucous membranes. In the event of contact with acid, rinse the affected region immediately with a plenty of water and seek for medical attention.

NOTE!

Do not disassemble the device! In the event of a defect, please contact your dealer. They will contact the Service Centre and can arrange the return of this device for repair if necessary.

Use only the recommended batteries. Always replace weak or empty batteries with a new, complete set of batteries at full capacity. Do not use batteries from different brands or types or with different capacities. Remove batteries from the device if it is not to be used for a longer period of time!

Protect privacy!

The Endoscope is intended only for private use. Respect the privacy of your fellow human beings - do not look into private flats with this device, for example!

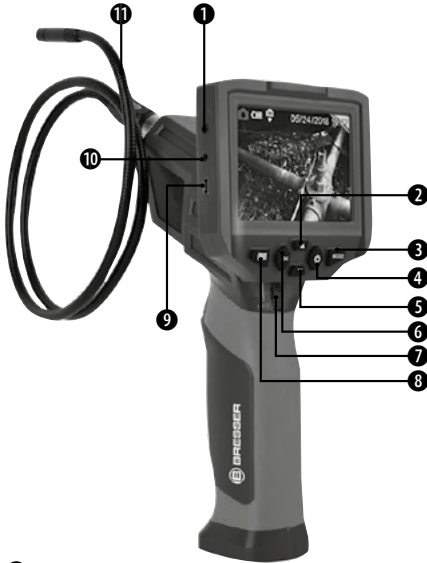

MAINTENANCE

- Always keep the camera lens clean.
- If other components not mentioned need to be replaced, please contact our service department.

Scope of delivery

- › Endoscope camera
- › Detachable 8.89 cm (3.5") LCD screen
- › 1 meter gooseneck/probe with 8.5 mm diameter
- › USB cable
- › A/V cable
- › 4x AA batteries (alkaline or Ni-MH)
- › Instruction manual

Transferring saved videos and photos to a computer

You can connect the endoscope to a computer with a USB cable.

You can find the saved photo/video files on the computer by searching in "My Computer \ Removable Disk".

Once the removable disk is selected, you can view, delete, move or copy any video or photo.

Troubleshooting

Switch off the unit:

- If the endoscope does not switch on, check whether the batteries are defective, missing or not inserted correctly. Replace the batteries or insert them correctly. Be sure to use only alkaline batteries.

Notes on Cleaning

Disconnect the device from the power source (remove batteries) before cleaning! Only use a dry cloth to clean the exterior of the device. To avoid damaging the electronics, do not use any cleaning fluid. Clean the eyepieces and lenses only with a soft, lint-free cloth like a microfibre cloth. To avoid scratching the lenses, apply only gentle pressure with the cleaning cloth. Protect the device from dust and moisture. Keep it in the supplied bag or transport packaging. The batteries should be removed from the unit if it has not been used for a long time.

Specifications

Monitor

Screen Type:	3.5 inch. (88,9 mm)
Colour LCD resolution:	320×240 pixels (QVGA)
Rotation:	360°
Resolution video recording:	320×240, 640×480, 1280×720 pixels
Resolution image capture:	640×480, 1600×1200, 2048×1536 pixels
Menu languages:	English, German, Chinese, Spanish, French, Russian, Japanese
Connections	Remote control port, AV output, USB and SD card slot

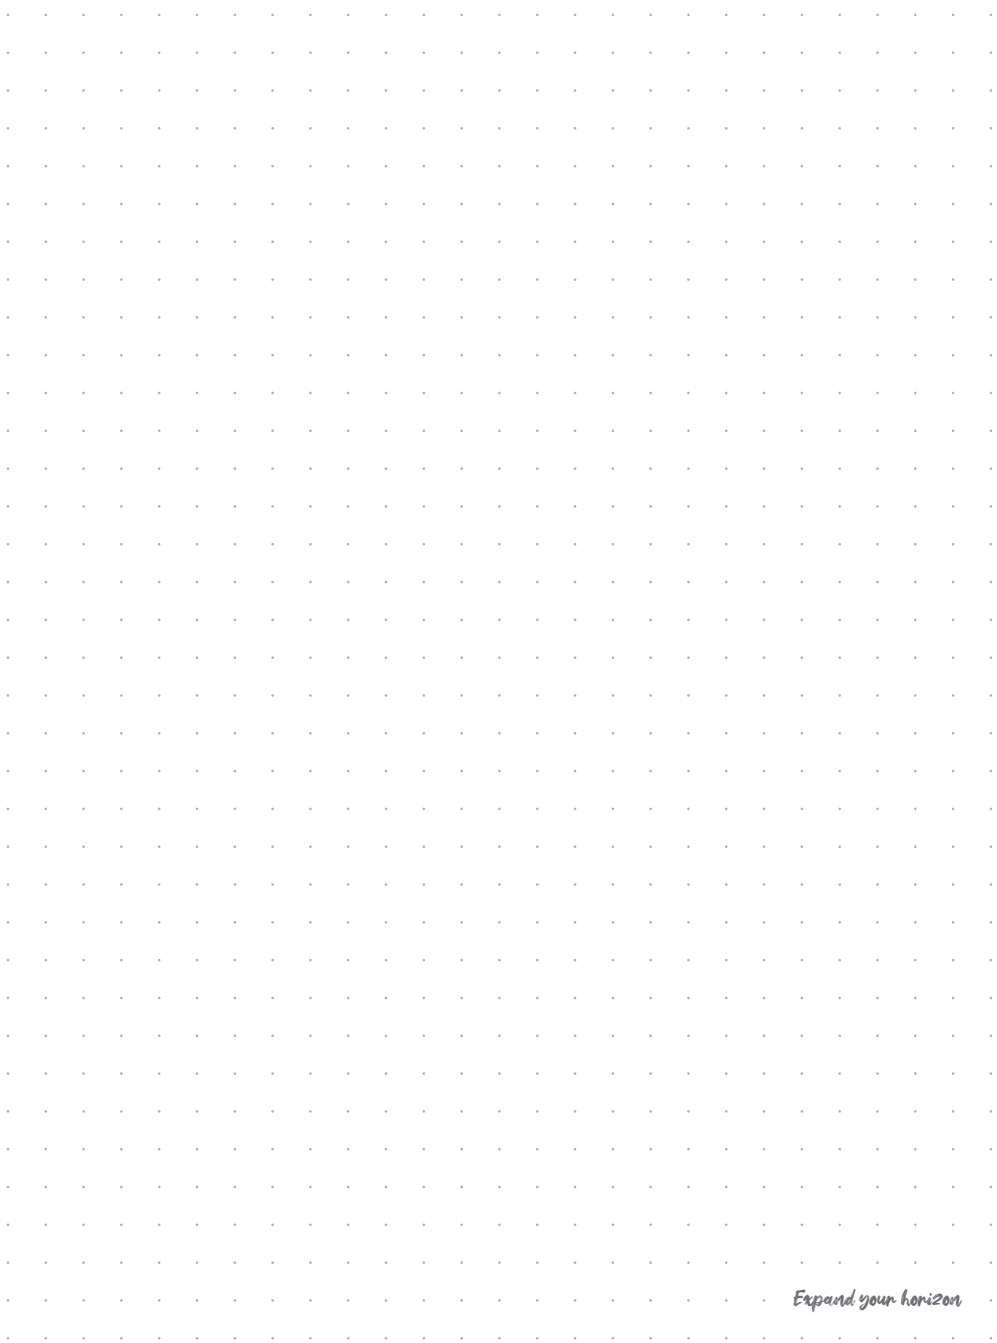

Camera

Probe diameter:	7.0 mm
Probe length:	100 cm (optional)
Resolution:	2 Megapixels

EC DECLARATION OF CONFORMITY

 A "Declaration of conformity" in accordance with the applicable directives and corresponding standards has been prepared by Bresser GmbH. This can be viewed at www.bresser.de/download/9680860/CE/9680860.pdf

DISPOSAL

 Dispose of the packaging materials properly, according to their type, such as paper or cardboard. Contact your local waste-disposal service or environmental authority for information about the proper disposal.

 Do not dispose of electronic devices in the household garbage!

According to the European Directive 2002/96/EU on Waste Electrical and Electronic Equipment and its transposition into national law, used electrical equipment must be collected separately and recycled in an environmentally sound manner.

Batteries and rechargeable batteries must not be disposed of with household waste. You are legally obliged to return used batteries and accumulators and can return the batteries after use either at our sales outlet or in the immediate vicinity (e.g. in the trade or in municipal collection points) free of charge. Batteries and accumulators are marked with a crossed-out dustbin and the chemical symbol of the pollutant, "Cd" stands for cadmium, "Hg" stands for mercury and "Pb" stands for lead.

WARRANTY & SERVICE

The regular guarantee period is 5 years and begins on the day of purchase.

You can consult the full guarantee terms as well as information on extending the guarantee period and details of our services at www.bresser.de/warranty_terms

Would you like detailed instructions for this product in a particular language? Then visit our website via the link below (QR code) for available versions.

Alternatively you can also send an email to manuals@bresser.de or leave a message on +49 (0) 28 72 – 80 74-220*. Please always state your name, precise address, a valid phone number and email address, as well as the article number and product name.

*Number charged at local rates in Germany (the amount you will

be charged per phone call will depend on the tariff of your phone provider); calls from abroad will involve higher costs.

Errors and technical changes excepted.
