A cup of coffee in a single touch

A cup of coffee in a single touch. Never limit yourself to a certain type of coffee; try out all the available flavours of Nespresso®, Dolce Gusto®, Lavazza a modo mio, ESE pads and ground coffee with this all-in-one appliance! With the Princess Multi Capsule Coffee Machine Steel 5-in-1, the touch of a single button offers the entire range of possibilities in either Espresso or Lungo size. You can also customize the default sizes yourself to get a very precise coffee strength and size.

High-quality materials and accessories

The robust, stainless steel housing with a detachable 0.8 L water tank at the back should last for a long time. Additionally, the accessories and front parts are just as durable, which includes an Italian pump, a spoon and tamper, drip tray, and adapters to fit the different types of cups and pads.

Powerful mechanisms at work

With a high-grade Italian pump and up to 1450 watts of power, you can be assured that all flavours and aromas are well-preserved during the process. The end-result is up to 19 bar of pressure working its way through the manually placed adapter of your choice. This way, you can energize yourself with your favourite cup of coffee every morning!
