Features

Clock function

The time is displayed in 24-hour format and the time/year/date can be set.

Display setting

The display has two modes: long light mode and sleep mode.
Long light mode: the alarm clock is always on when the external power supply is powered and the time and temperature display are continuously illuminated.
Sleep mode: When the product is powered by its internal battery, the product enters sleep mode after being left for 5 seconds. You can tap the product or make a sound to wake up the display light again.

Snooze function

When the alarm goes off, you can turn on the snooze function by gently shaking the clock. The snooze reminder icon "Zz" will also light up when the snooze function is turned on. The alarm will go off again 5 minutes after the snooze function is turned on. After 3 minutes of continuous alarm sound without touching it, the alarm clock will turn off the alarm for the day, or you can directly press the alarm switch to turn it off.

Technical specs

Product Name	alarm Clock Cloud
Patent	ZL201430170050.5
Material	PC, ABS
Dimension	122mmX79mmX35mm
Weight	120g
Power Input	DC 5V/1A
Battery	900mAh
Color	Pink/Green
