Micro-grind technology
Thanks to the micro-grind technology this coffee maker with integrated conical grinding system brews the best coffee!

6 programs
Use one of the 6 pre-programmed buttons to brew the perfect coffee. Press one of the illuminated buttons for direct operation.

Detachable watertank
The water tank is detachable, which makes it easy to refill machine. The tank is placed at the back of the coffee machine and shows how many cups of fresh coffee can be served with the amount of water.

Adjustable grinding size
The coffee maker has a professional grinding system. The grind size and coffee strength can be regulated easily, so every coffee of choice can be brewed.
