DRYWALL SANDER COMBI 710W - POWX0477

Sanding ceilings and high walls is a quick and easy job with this drywall sander. The long reach allows you to comfortably stay on the ground instead of balancing on a ladder. The sander's swivel-mounted head adapts to the angle of the surface, enabling you to sand a large area without changing position. The result? You can sand 3 to 4 time faster than with a conventional sander.

You will end up with a perfect smooth surface as the cushioned swirling pad will eliminate swirl marks.

To efficiently reach into corners, change the circular pad with the triangular pad. The discs are easily changeable and thanks to the hook and loop system you can quickly replace the sandpapers as well.

To minimize the amount of dust in the air, the POWX0477 can be attached to an industrial vacuum cleaner. The lightweight sander is delivered in a carry bag with 6 circular and 6 triangular sandpapers.

TECHNICAL SPECIFICATIONS POWX0477		Features	Box content	Symbols
Rated voltage - frequency	230-240V~ 50Hz	<ul style="list-style-type: none"> • Easily access hard to reach places • Easy storage & transportation • Constant power, extra powerful • Soft grip • Hook & loop system • Electronic speed control • Vibration reduction • Swivel ball cable restraint 	1x drywall sander
