

Features

It's made by 2.4GHz wireless control technology with low power consumption, long distance, strong ability for anti-interference and quick communication. Power supply is CR2032 battery, the rotating switch can dim brightness and color temperature, it's compatible for MiBoxer single color and CCT LED light.

Dim brightness

Color temperature adjustable

2.4GHz RF wireless transmission technology

Magnetic holder

Parameters

Model No.: K1

Working Voltage: 3V (CR2032 battery)

Transmitting Power: 6dBm

Working Temperature: -10~40°C

Standby Power Consumption: <6uA

RF: 2.4GHz

Control Distance: 30m

Panel Size: 86*86mm

Manufacturer: Futlight Optoelectronics Co., Ltd

Address: 2 Floor Building 4, Good Mind Industry, No.68 ChaoYang Road, YanLuo Street, Bao'an District, ShenZhen City, China

Made in China
