

# VUES

## Specification

Thunderbolt 3 is known for the fastest and most comprehensive technology using USB-C. Thunderbolt 3 offers many more options than the regular USB-C Gen 1 or Gen 2. Thunderbolt 3 uses a protocol that allows you to exchange data or video signals with each other at a very high speed. This can be done up to 40Gbps.

## Features

- High speed data transfer
- Video/image support
- Supports Fast-Charging
- Power supply up to 100W
