FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warranty

Macally peripherals warrants that this product will be free from defects in title, materials and manufacturing workmanship for one year from the date of purchase. If the product is found to be defective then, as your sole remedy and as the manufacturer's only obligation, Macally will repair or replace the product. This warranty shall not apply to products that have been subject to abuse, misuse, abnormal electrical or environmental conditions, or any condition other than what can be considered as normal use.

Warranty Disclaimers

Macally Peripherals makes no other warranties, express, implied or otherwise, regarding the BTMLUXKEY, and specifically disclaims any warranty for merchantability or fitness for a particular purpose. The exclusion of implied warranties is not permitted in some states and the exclusions specified herein may not apply to you. This warranty provides you with specific legal rights. There may be other rights that you have which vary from state to state.

Limitation of Liability

The liability of Macally Peripherals arising from this warranty and sale shall be limited to a refund of the purchase price. In no event shall Macally Peripherals be liable for costs of procurement of substitute products or services, or for any lost profits, or for any consequential, incidental, direct or indirect damages, however caused and on any theory of liability, arising from this warranty and sale. These limitations shall apply notwithstanding any failure of essential purpose of any limited remedy. V1.1.

Hardware Basics

Pairing keys: press enter and up arrow keys simultaneously until "pair" LED blinks in green to start pairing before first time use

Pairing the keypad with Mac

1. Press enter and up arrow keys simultaneously to set keypad in pairing mode, the LED flashes green

2. Please click the Bluetooth icon in your computer's menu bar located in upper right corner of your screen.

Make sure Bluetooth is turned to On then select "Open Bluetooth Preferences ..." in the drop down menu.

3: Bluetooth window displays a found Macally Bluetooth keypad, please click on the "Pair" or "Connect" button next to it.

4: Once pairing is finished, the Bluetooth keypad shows "Connected" status.

Pairing the keypad with your Windows PC

1. Press enter and up arrow keys simultaneously to set keypad in pairing mode, the keypad LED flashes.
2. In Windows PC, go to Devices and Printers and select Bluetooth Devices.
3. Click "Add a device" at the top left corner like shown in the picture.

4. Once you see the Macally Bluetooth Keypad appear, select it and press "Next"

5. After a short period, Windows will show the following screen indicating that the keypad is now paired with the computer.

Any necessary drivers will install automatically.

Please note that the driver installation may take a few minutes. Windows will notify you when the keypad is ready to use.

Please note that if you are using a different Windows OS version, your screen may differ from the above diagrams.
