Product specification

Water
(demineralized)

Silver 99,9%

Shelf life and dosing

The shelf life of Colloidal Silver Water 20ppm – 50ml is up to 24 months after production date. Store at room temperature and in the dark. After opening, a bottle should be stored at room temperature and protected from direct sunlight. The dosage depends on the age and personal condition.

Standard: 3-6x daily 20 drops in a glass of water, keep in mouth for a while and swallow slowly.

In acute cases, if necessary, every hour 15 drops in a glass of water and drink it slowly.

Preventative: 20 drops of colloidal silver water in a glass of water, 3 times a day, drink slowly for 7 days, thereafter 25 drops daily.

Children: 1 drop 3 times a day for each year of life.

During pregnancy: consult a doctor first.

Packaging

Colloidal Silver Water 20ppm – 50ml is packaged in an amber-coloured glass bottle with a dripper pipet. A box contains 12 bottles.
