

STREX | LED PROJECTOR

BRIGHTER & CRISPIER IMAGES

The Strex SP64 projector displays sharper and brighter images as a result of the true HD resolution. The high lumen LED projector lens displays beautiful vivid and bright colors. Even when being used in a non dark environment. Two built-in 3W speakers provide excellent sound quality. Despite its small size, this compact beamer is not inferior to its larger counterparts and is easy to move and place in different rooms.

MULTIMEDIA VERSATILITY

The beamer has the following inputs: 2 HDMI / 2 USB / AV / VGA / 3.5mm headphone jack. This will ensure you are able to use it with a wide variety of different devices such as your laptop / PC / TV box / Chromebook / tablet / blue-ray DVD player / USB flash drive / multi-media player / iOS / Android (HDMI cable included FREE). If your device doesn't support HDMI there's also USB/MHL connectivity. Thanks to the built-in Wi-Fi connection you can stream and video or sound file directly to the beamer without having to use a connection cable. Note: Chromecast is supported.

BIG SCREEN HOME CINEMA PROJECTOR

Supports 50" to 200" (125 cm to 500 cm) projection size with a distance of 1m to 5m. 1m is the shortest distance to focus. The ultimate viewing distance is 3m with a screen size of 250cm. With this projector you can easily create a private home cinema to enjoy movies with your friends and family.

MULTIPLE MOUNTING OPTIONS

The 1/4" (6.3mm) diameter universal screw hole allows you to mount the beamer to a stand, tripod, ceiling or wall. This will allow you to easily change the beamer to the desired angle. Stand not included*
