

## Lashnovo Eyelash Adhesive – Instructions & Safety Guidelines

Thank you for choosing **Lashnovo**! Our eyelash adhesive is formulated with high-quality ingredients and is designed for professional use. Please read the following instructions carefully to ensure safe and optimal application.

---

### ⚠ Important Safety Information

- This adhesive is **intended for professional use only**. Improper application may lead to irritation.
  - Avoid direct contact with the skin and eyes. In case of contact, rinse immediately with water and seek medical advice if irritation persists.
  - Store in a cool, dry place, away from direct sunlight and heat.
  - Keep out of reach of children.
- 

### ✿ Hypoallergenic Formula – Patch Test Required

While our adhesive is formulated to minimize the risk of irritation, individual allergic reactions can still occur. A **patch test is mandatory** before full application.

#### How to Perform a Patch Test

1. **Apply a small amount** of adhesive behind the ear or on the inner arm.
2. **Let it dry completely** and keep the area dry for 24 hours.
3. **Observe for any reactions** such as redness, swelling, itching, or irritation.
4. If any reaction occurs, **do not use** the adhesive and consult a professional.

⚠ **By using this product, you acknowledge the importance of a patch test. Lashnovo is not responsible for allergic reactions that may occur due to individual sensitivities.**

---

### ★ Instructions for Use

1. Ensure natural lashes are clean and free from oil or makeup.
  2. Apply a **small amount** of adhesive to the lash band or lash clusters.
  3. Wait **5-10 seconds** for the adhesive to become tacky before application.
  4. Use tweezers to attach the lashes as close to the natural lash line as possible.
  5. Allow to set and avoid moisture for the first **24 hours** for optimal retention.
- 

### ✗ Do Not Use If:

- You have a history of severe eye allergies.

- You have open wounds, infections, or irritations near the eyes.
  - You have experienced previous allergic reactions to lash adhesives.
-
