

HoriVue Portable Monitor manual

<h2 style="text-align: center;">User Manual</h2> <div style="text-align: center;">  <p>15.6 Inch Portable Monitor</p> </div> <p style="font-size: small; text-align: center;">Dear Customer, thank you for purchasing our portable monitor. In order to give you a better experience, please read this user manual before operating.</p>	<h3 style="text-align: center;">Package</h3> <p style="text-align: center;">15.6 inch Portable Monitor</p> <div style="text-align: center;">  <p>15.6 Inch</p> </div> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>USB-C to USB-C cable VIDEO & AUDIO & POWER</p> </div> <div style="text-align: center;">  <p>USB-C to USB-A cable POWER ONLY</p> </div> <div style="text-align: center;">  <p>Mini HDMI to HDMI cable VIDEO & AUDIO</p> </div> </div> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  <p>User Manual</p> </div> <div style="text-align: center;">  <p>Leather Case</p> </div> </div>	<h3 style="text-align: center;">Monitor Introduction</h3> <div style="text-align: center;">  <p>15.6 Inch</p> </div> <div style="display: flex; justify-content: space-between; font-size: small;"> <div style="width: 45%;"> <p>① USB-C port (Full function)</p> <p>② USB-C port (Full function)</p> <p>③ Mini HDMI port</p> </div> <div style="width: 45%;"> <p>④ Back/ Power button</p> <p>⑤ Roll Key</p> <p>⑥ 3.5mm Headphone port</p> </div> </div> <ol style="list-style-type: none"> ① USB-C port (Full function): Power supply, audio and video signal transmission ② USB-C port (Full function): Power supply, audio and video signal transmission ③ Mini HDMI port: Audio and video signal transmission. ④ Back/ Power button: Short press to back to previous level; Press 3 seconds to turn the display on/off; ⑤ Roll Key: Press the "Roll key" to open the OSD menu; scroll the "Roll key" up and down in the menu to control the cursor; press it confirm; Scrolling up or down to control volume or brightness menu; ⑥ 3.5mm Headphone port: Headphone, speaker expansion port 	<h3 style="text-align: center;">How to Use the Case</h3> <div style="text-align: center;">  <p>Lift bottom of monitor away from the case</p> </div> <p style="text-align: center;">POSITION 1</p> <div style="text-align: center;">  </div> <p style="text-align: center;">POSITION 2</p> <div style="text-align: center;">  </div>	<h3 style="text-align: center;">Connect Monitor with Devices</h3> <h4 style="text-align: center;">Connect with Laptop</h4> <p style="font-size: x-small;">If your laptop has a USB-C port, connect one end of the USB-C to USB-C cable to the laptop and the other end to the monitor. Some laptops may not provide enough power to the monitor. Check the USB-C port on your laptop for the symbols shown in the table below. If you have one of the green checked symbols, then your USB-C port will provide data and enough power to the monitor.</p> <table border="1" style="width: 100%; text-align: center; font-size: x-small;"> <tr> <td></td> <td>✓</td> <td></td> <td>✓</td> </tr> <tr> <td></td> <td>✓</td> <td></td> <td>✓</td> </tr> <tr> <td></td> <td>✓</td> <td></td> <td>✓</td> </tr> </table> <p style="font-size: x-small;">* When the monitor won't turn on, connect the USB-A to USB-C cable with the monitor for charging.</p> <p style="font-size: x-small;">If your laptop does not have a USB-C port, connect one end of the USB-A to USB-C cable to the laptop and the other end of the monitor. Then also connect the HDMI cable.</p> <div style="text-align: center;">  <p>HDMI USB-A</p> </div> <p style="font-size: x-small;">If you are connecting to other devices, be sure to connect to an external power supply first by using the secondary USB-C port, then connect the HDMI cable to ensure a smooth transition of signal.</p>		✓		✓		✓		✓		✓		✓	<h3 style="text-align: center;">Connect Monitor with Devices</h3> <h4 style="text-align: center;">Connect with Phone</h4> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px; font-size: x-small;"> <p>Video/ Audio/ Power USB-C to USB-C</p> <p>Only required if your device has low power USB-C ports. Power USB-C to USB-A</p> </div> </div> <p style="font-size: x-small;">*Not all phones support external. Just support the phone with USB-C3.1 protocol. When the brightness and volume are adjusted to above 80%, it is recommended to connect external power supply of 5V/2A or more.</p> <h4 style="text-align: center;">Connect with iPhone (Requires lightning to HDMI adapter)</h4> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px; font-size: x-small;"> <p>Video and Audio HDMI to Mini HDMI</p> <p>Power USB-C to USB-A</p> </div> </div> <h4 style="text-align: center;">Connect with Game Console</h4> <div style="display: flex; align-items: center;">  <div style="margin-left: 10px; font-size: x-small;"> <p>Video and Audio HDMI to Mini HDMI</p> <p>Power USB-C to USB-A</p> <p>May be necessary for lower power USB ports Power USB-C to USB-A</p> </div> </div> <p style="font-size: x-small;">* HDMI does not provide power</p>	<h3 style="text-align: center;">Description of Menu Items</h3> <table border="1" style="width: 100%; font-size: x-small;"> <tr> <td style="width: 50%; vertical-align: top;"> <p>Brightness Menu</p> <p> Individual brightness settings will be disabled if an ECO mode other than STANDARD is selected, DCR is set to ON, or HDR is enabled</p> </td> <td style="width: 50%; vertical-align: top;"> <p>Brightness Contrast Black Level Sharpness</p> <p> Do not adjust the brightness above 80% unless you are connected to an external power supply of 5V/2A or greater</p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Image Menu</p> </td> <td style="vertical-align: top;"> <p>ECO: Preset display settings for various modes</p> <p>DCR: Enable/ disable dynamic contrast ratio</p> <p>Aspect: Switches between 4:3 and wide aspect ratios</p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Color Temp Menu</p> </td> <td style="vertical-align: top;"> <p>Enables the adjustment of each individual RGB color, or select a warm or Cool preset level</p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>OSD Menu (On Screen Display for monitor settings)</p> </td> <td style="vertical-align: top;"> <p>Language: Selects language for settings</p> <p>OSD Timer: Sets time-out for monitor settings menu (10-60 seconds)</p> <p>Transparency: Sets transparency of monitor settings menus</p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Reset Menu</p> </td> <td style="vertical-align: top;"> <p>Reset: Reset all values to factory settings</p> <p>Mute: Disables monitor audio</p> <p>Volume: Increase/ decrease audio level</p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Misc Menu</p> </td> <td style="vertical-align: top;"> <p>Signal Source: Selects source (USB-C or HDMI)</p> <p>Low Blue Light: Decreases blue light content in display</p> <p>HDR Mode: Enables HDR(High Dynamic Range) if connected to a compatible device</p> </td> </tr> </table>	<p>Brightness Menu</p> <p> Individual brightness settings will be disabled if an ECO mode other than STANDARD is selected, DCR is set to ON, or HDR is enabled</p>	<p>Brightness Contrast Black Level Sharpness</p> <p> Do not adjust the brightness above 80% unless you are connected to an external power supply of 5V/2A or greater</p>	<p>Image Menu</p>	<p>ECO: Preset display settings for various modes</p> <p>DCR: Enable/ disable dynamic contrast ratio</p> <p>Aspect: Switches between 4:3 and wide aspect ratios</p>	<p>Color Temp Menu</p>	<p>Enables the adjustment of each individual RGB color, or select a warm or Cool preset level</p>	<p>OSD Menu (On Screen Display for monitor settings)</p>	<p>Language: Selects language for settings</p> <p>OSD Timer: Sets time-out for monitor settings menu (10-60 seconds)</p> <p>Transparency: Sets transparency of monitor settings menus</p>	<p>Reset Menu</p>	<p>Reset: Reset all values to factory settings</p> <p>Mute: Disables monitor audio</p> <p>Volume: Increase/ decrease audio level</p>	<p>Misc Menu</p>	<p>Signal Source: Selects source (USB-C or HDMI)</p> <p>Low Blue Light: Decreases blue light content in display</p> <p>HDR Mode: Enables HDR(High Dynamic Range) if connected to a compatible device</p>	<h3 style="text-align: center;">Warning</h3> <ul style="list-style-type: none"> Read all warning and documentation before using this product Keep away from heat, flammables, poisons, and corrosive substances Keep away from water, liquid, dust, and moisture or excessive humidity Do not drop, damage, or disassemble the monitor Keep out of reach of children <h3 style="text-align: center;">Care Instructions</h3> <p style="font-size: x-small;">Clean monitor with a lint-free non-abrasive cleaning cloth. Unplug the monitor before cleaning. For additional cleaning, use a cleaner specifically for LCD screens. Spray the cleaner on the cloth, then gently clean the screen. Do not spray the cleaner directly on the screen.</p>
