Buttons and functions

Instructions

Issues	Solutions
Does Not Work	1.Because the product has a wire control board without battery, SO you must use USB charging cable to get power. The above AUX and USB cable should be used at the same time then the machine can work.
One Side No Sound	1.Make sure the 2 ends of the AUX cable are inserted in place. 2.Try to adjust the volume rotation button
Noise After Insert	1.Please use the supplied AUX audio shield cable and make sure both ends are plugged into the input and output holes. 2.Please try to access the USB power supply from the USB port of the same product as the volume output.

Notices

- 1.If you put the product on your working table, it may move slightly when the volume is at its maximum, so please be careful to protect it from falling.
2. Power supply, do not use the feature phone charger. You can use the smartphone charger. Otherwise, it may cause whistling and noises.
