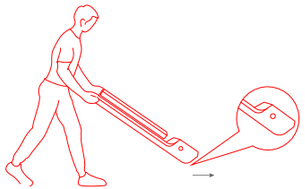
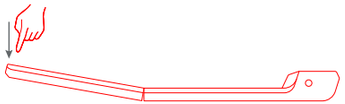
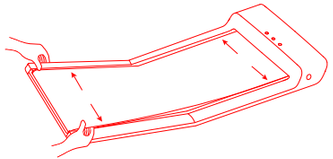
03 Guide for initial operation



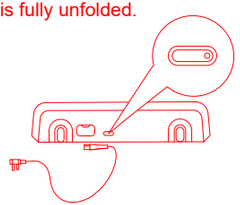
1. Choose flat ground to place the WalkingPad. It is forbidden to place it on thick and soft cushion. Please note: Don't connect the power before the WalkingPad is fully unfolded.



2. Unfold the walkingpad slowly and press it down to completely flat.

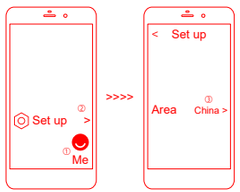


3. Check and adjust the walking belt to make sure it's centered.

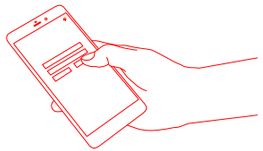


4. Connect the power cord and press the button to switch on.

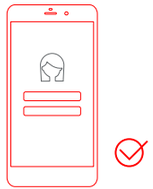
5. Search "Mi Home" APP from Apple Store or Google Play and complete installation.



6. Set the address to China.（APP → Profile → Settings → Region → Chinese mainland）

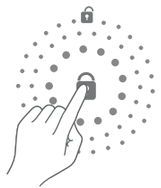


7. Open the APP, add walkingpad as prompted.

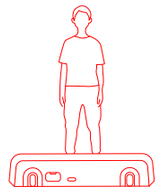


8. Enter novice guide.

9. Complete Novice Guide to unlock all Functions (maximum speed 6 km/hr). Otherwise the speed limit remains at 3 km/hr.



10. After completing the novice mode, unlock all functions.



11. Start to use the walkingpad.

04 Learn to use WalkingPad

1. Mode instruction

Standby Mode

Light of the Standby mode is on;
Motor and sensor stop responding.

M Manual Mode

Light of the manual mode is on;
Control the speed through the remote control or APP.

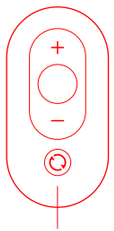
A Automatic Mode

Light of the automatic mode is on;
Speed is automatically controlled by intelligent algorithm.
It follows the speed of walking.

2. Instructions of the standby mode control

Standby Mode

The motor and sensor stop responding in this mode to prevent nonusers from accidentally triggering the walkingPad.

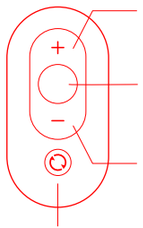


Mode Switch
Short press: return to the previous mode.

3. Instructions of manual mode control (primary mode)

Manual Mode

In this mode, the speed of the walkingpad can be controlled by the remote control. It is recommended that beginners use the manual mode first and then use the automatic mode after being skilled in using the walkingpad. The manual mode is controlled by remote control by default, that is, the START/STOP button of the remote control is used to start or stop the walkingPad, which can be modified in the client "Personalized".

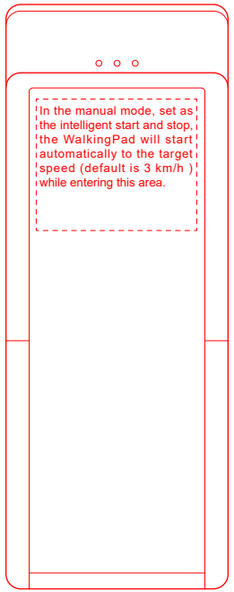


ACCELERATION
Short press: increase speed by 0.5 km/h.

START/STOP
Short press: start or stop the WalkingPad.

DECELERATION
Short press: reduce speed by 0.5 km/h.

MODE SWITCH
Short press: switch to automatic mode.
Long press: switch to standby mode.

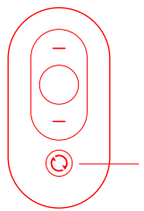


04 Learn to use WalkingPad

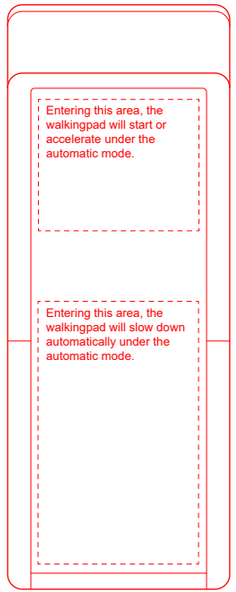
4. Description of automatic mode control (advance mode)

Automatic mode

This is a challenging and higher-class mode, User can walk on the walkingpad completely out of remote controller. We only recommend those who have good sports skills or walking-device experience to take the challenge.



Mode Switch
Short press: switch to manual mode.
Long press: switch to standby mode.



5. Remote Controller Notice

If the remote controller has no response or you change a new one, the remote controller and walking device need to re-establish communication.

Remote control pairing method: Restart the WalkingPad, press and hold down the mode switch button on the remote control immediately, hearing the sound of "Beep" indicates the success of pairing. Note: During the operation, the remote control should be close to the LED display panel of WalkingPad.

6. Wi-Fi Warning Light

Long-term Lighting Mode: Indicates that the machine is not connected to the cloud server.

Long-term Lighting Out Mode: Successful Connection between "Machine" and "Cloud".

Flash Mode: Indicates that the machine is networking or that the chip is being upgraded.

7. Error Warning Light

Error Warning Light on the display panel is off when WalkingPad works well. When error occurs, Error warning light turns on and shows its error code.

E01: Communication fault;

E02: Voltage Protection;

E03: IPM Overheating;

E05: Overcurrent protection;

E06: Motor Protection;

E08: Sensor Fault;

E09: Wi-Fi Communication Fault.

8. Networking and firmware upgrade

By default, the factory is in the state of waiting for networking and can directly use customer bundles.

When you need to enter the networking state again, you can press the mode button on the walking machine for a long time in standby mode, make a "Di" sound directly from WalkingPad, and the Wi-Fi warning light begins to flicker.

OTA firmware upgrade, in the "MI Home" APP can receive update prompts, see the update instructions, according to the prompts on the phone to operate, automatically complete the firmware upgrade. In firmware upgrade, Wi-Fi warning lights enter blinking status prompt.

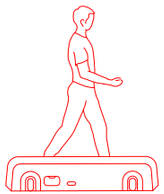
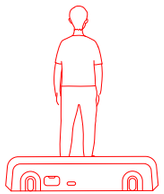
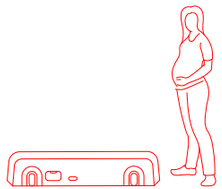
Children should be supervised to ensure that they do not play with the walkingpad.



Walking sideways on the machine is prohibited.



Walking backwards on the machine is prohibited.



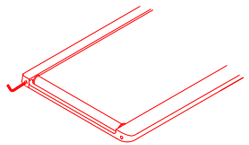
Please use this product reasonably according to your physical condition (the elderly and pregnant women should use it cautiously). If you feel unwell, stop exercising immediately. If necessary, please seek medical attention.

06 Maintenance and Service

1. Clean the walking machine

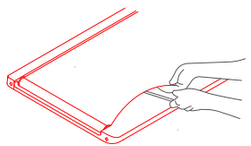
- Turn off the machine and unplug the power cord.
- Add several drops of detergent on cotton rag or towel. Don't pour the detergent on the belt directly, and don't use acid or corrosive cleaners.
- Wipe off dust and stains on the frame, front panel and belt. Do not wipe backside of the belt.
- After using for a period, dust and stains may appear on the back part, that is normal situation, and just clean them up.

2. Adjust the belt



- Press and hold both Mode Switch Button and Acceleration Button on the remote control over 3 seconds.
- Front panel shows "CALI" and the speed is 4 km/hr (2.5 mi/hr).
- If belt deviates to the left: Turn the left adjusting screw for a half-circle clockwise.
- If belt deviates to the right: Turn the right adjusting screw for a half-circle clockwise.
- If belt is slipping: Turn both left and right adjusting screw for a half-circle clockwise at same time.
- Keep the machine running for 1-2 minutes and check whether it needs to readjust.

3. Lubricate the Belt



- Turn off the machine and unplug the power cord.
- Lift up the belt and apply silicone oil on the backside of the belt.
- Turn on the machine again
- Keep the machine running under 4 km/hr (2.5 mi/hr) for 10-20 20 seconds.
- Only apply 5 ml ~ 10 ml lubricant oil each time, too much lubricant oil makes the belt become slipping.
- Apply for silicone oil once every 3 months.

08 Replacement and Disposal

The battery contained in this appliance must be removed for or disposal.

When replacing the battery, use only original battery, available from our online parts shop.

The battery compartment is located on the underside of the appliance. Open the compartment by removing the screw in the cover using a suitable screwdriver, and then press the lower end of the locking catch on the connectors. In that way, both sides of the connection can be separated by pulling them apart.

When inserting a new battery, push together the two connectors and ensure that the catch locks over the stop.

Never dispose of old battery in domestic garbage, but only through the proper public collection points. This also applies to the battery of defective appliances.

08 Replacement and Disposal

Devices marked with this symbol must be disposed of separately from your household waste, as they contain valuable materials which can be recycled. Proper disposal protects the environment and human health. Your local authority or retailer can provide information on the matter.
