Enjoy the warmth of Pasper

Pasper is a Dutch brand known for its innovative, extra large hot water bottles.

Designed to stay warm longer and provide more comfort than standard hot water bottles.

With smart improvements in size and quality, Pasper created a bottle that truly makes a difference.

Today, more than 100.000 people across Europe enjoy the warmth and comfort of Pasper.

Safety information

Please read the safety instructions carefully in order to enjoy the Pasper XXL hot water bottle longer and more sustainably.

Warnings

Use your bottles can cause burns. Avoid prolonged direct contact with the skin. Do not use boiling water when filling. Only use water up to 60 °C. Fill the bottle to a maximum of 2/3 of its capacity to prevent bursting. Slowly squeeze out remaining air after filling. Do not use it together with an electric blanket. Check the bottle regularly for wear, damage, or leaks.

If you use the bottle for your baby, only use it to protect the bed. Remove it from the bed when the baby is in it. Always consult a doctor, maternity nurse or midwife first.

Care and maintenance

Wash and don't use the bottle. Dry the bottle completely inside and out. Remove the sleeve. Don't expose or bring out top of the bottle. Store in a dry, dark, dark place, and avoid sunlight. Check the bottle and sleeve for wear, tears, and damage before use. We recommend replacing the hot water bottles every 3 years.

Product information

This hot water bottle complies with the safety standard EN12195:2012. This is the international standard for safety of hot water bottles.

Materials

Body: Polyester. Cover: washable at 30°C. Bottle: natural rubber. Made in China.
