

NEGATIVE ION & OZONE DOUBLE-EFFECT MODE, DOUBLE-EFFECT DOUBLE-EFFECT CLEANSING, BID FAREWELL TO DARK HAZARDS

The product releases 160 million negative oxygen ions + 100mg/h of active oxygen release to double purify bacteria, formaldehyde, and odors in every corner

High concentration of negative oxygen ions
Purify the dust and particles in the air. Effectively remove second-hand smoke, increase air oxygen ion content, and improve air quality

100mg/h active oxygen release
Active oxygen decomposes organic pollutants, removes odors, kills harmful bacteria, and effectively decomposes harmful gases such as formaldehyde.
