# THE intelligent robotic lawnmower. SILENO.

The GARDENA SILENO Robotic Lawnmowers are developed with the help of 20 years of experience, this ensures that your lawn care is as easy and effortless as possible. Reliable and fully automatic. You can choose between models connected to GARDENA smart system or via Bluetooth® to be easily and safely controlled with your fingertips via the GARDENA smart or the GARDENA Bluetooth® App.

**MADE IN EUROPE**

# Mowing with the mowing masters

SILENO. THE intelligent robotic lawnmower.

## FULL CONNECT

Fully connected to the GARDENA smart system. Your garden is taken care of from anywhere\*

\* Get the full smart experience with our GARDENA smart range

## AI-PRECISE

Better navigator, tackles the narrowest spaces and tightest corners with reliable precision

## PRO-SILENT

The quietest, best in class noise level

## AUTO WEATHER & TERRAIN

SILENO works under all weather conditions, rain or sunshine. Easy or complex lawns

### **CORRIDOR CUT**

Mowing even difficult or narrow passages from 60 cm is no problem for SILENO minimo, city and life thanks to the CorridorCut function. Due to a special mowing pattern the lawn is cut evenly.

### **CLEVER**

With SpotCutting, a spiral mowing function ideal for hard-to-reach areas such as under trampolines or garden furniture.

### **UNCOMPLICATED**

Simply clean the SILENO minimo, city and life using your garden hose. And you are ready to go!

### **CUSTOMISED**

All models also have the SensorControl function: The intelligent cutting system automatically adjusts the mowing time based on grass growth.

### **FROST SENSOR**

As soon as the outside temperatures approach freezing, the schedule of the robotic lawnmower is suspended (SILENO minimo, city and life). This protects the lawn, as mowing damages the grass when it is frozen.

**FLEXIBLE**  
How much should be cut?  
The cutting height can be  
adjusted flexibly.

# Stay connected to your Robotic Lawnmower

with smart system or Bluetooth® technologies

A full range of connected SILENOs for easy and intelligent control of your garden. With our new products featuring smart and Bluetooth® technology, GARDENA is beginning a new chapter and offering garden owners a comfortable solution for operating individual devices in their garden via App.

**EXACT**  
Proven technology provides precise results:  
Thanks to the GARDENA boundary wire,  
the robotic lawnmower knows exactly where  
to mow – down to the exact centimeter.  
The boundary wire and guide cable do not  
have to be buried and will be invisible after  
a few weeks as the grass grows over them.

**EASY TO INSTALL**  
Installation is as easy as ABC and can  
be completed quickly. See our installation  
films online for more information.

# Instant Control from anywhere

## GARDENA smart App

Your entire garden is always at your fingertips with the free GARDENA smart App. Mowing the lawn and watering has never been so convenient. Even lights or other electrical devices in the garden are now easy to control. The GARDENA smart App is setting a new benchmark. New functions and services are constantly being added, making the app an essential companion in the garden.

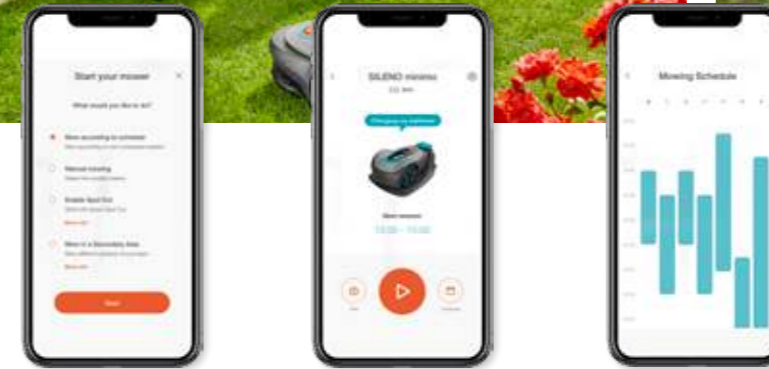

**EasyApp Control** From anywhere    **EasyConfig**    **Auto Schedule**    **Smart Home**    **Plant Library**

# Instant Control from up to 10 m

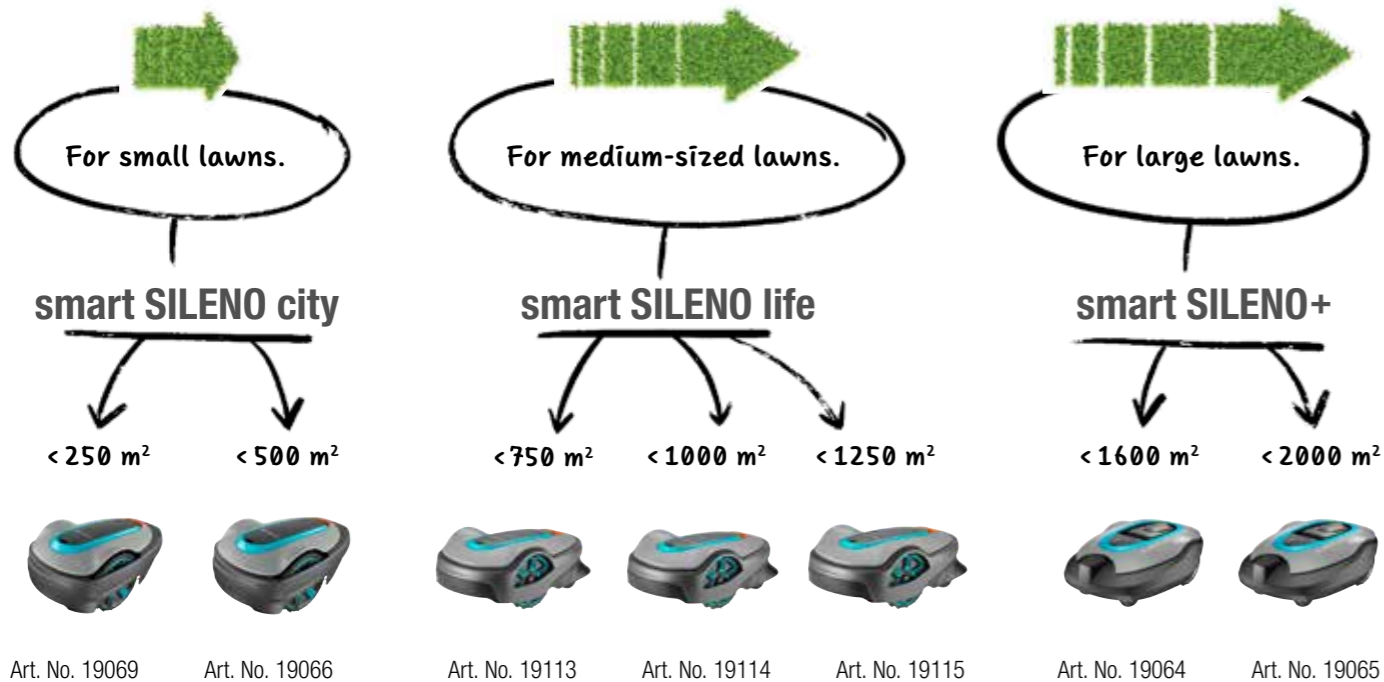

## GARDENA Bluetooth® App

Control your SILENO with ease from any spot of your home or garden with up to 10 m distance. SILENO minimo, city and life are Bluetooth connected and settings are at hand with the GARDENA Bluetooth App. For SILENO city and life models, settings can also be done via a control pad directly on the mower.

**EasyApp Control** Up to 10 m    **EasyConfig**    **Auto Schedule**
