The Aputure MC is a full spectrum mini LED light for video professionals. With complete control of the color spectrum in the palm of your hand, the MC allows you to unleash your creativity while staying light and portable.

The MC gives filmmakers the freedom to create. By utilizing Bluetooth 5.0 and SIG mesh technology, you can control the MC from your smartphone or tablet. Wireless charging and USB Type-C compatibility also make your MC ready whenever you need it.

Any color. Any time.
